The City Council further finds, based upon the forgoing and the information contained within the agenda submittal and accompanying attachments/exhibits, as well as all oral and written testimony and presentations made by members of the public and City staff at the public hearing on June 13, 2023, with respect to the Project, the following regarding Specific Plan Amendment 22-05053:

- A. *The Specific Plan Amendment is consistent with the General Plan Land Use Map and applicable General Plan objectives, policies, and programs.*

The proposed amendment to the Circulation Plan of the Perris Valley Commerce Center Specific Plan (“PVCCSP”) is consistent with the General Plan, in that the General Plan Land Use will remain within the PVCCSP and is located within the General Plan area designated as planning Area 3: Agricultural Conversion Area which is generally made up of commercial and industrial land uses.

In addition, the proposed Specific Plan Amendment promotes Goal III of the General Plan Land Use Element, and Goals II and V, and Policies V.A and VIII.B of the General Plan Circulation Element:

Goal III (Land Use Element): Commerce and industry to provide jobs for residents at all economic levels.

Goal II (Circulation Element): A well planned, designed, constructed, and maintained street and highway system that facilitates the movement of vehicles and provides safe and convenient access to surrounding developments.

Goal V (Circulation Element): Efficient goods movement.

Policy V.A (Circulation Element): Provide for safe movement of goods along the street and highway system.

Policy VIII.B (Circulation Element): Identify Transportation System Management (TSM) strategies that will assist in mitigating traffic impacts and that will maintain the desired level of service along the street and highway system.

B. The Specific Plan provides adequate text and diagrams to adequately address the following issues in detail:

1. The distribution, location, and extent of the land uses of land, including open space, within the area covered by the Plan.

2. The proposed distribution, location, and extent and intensity of major components of public and private transportation, sewage, water, drainage, solid waste disposal, energy, and other essential facilities proposed to be located within the area covered by the Plan and needed to support the land uses described in the Plan.

3. Standards and criteria by which development will proceed, and standards for the conservation, development, and utilization of natural resources, where applicable.

4. A program of implementation measures including regulation, programs, public works projects, and financing measures necessary to carry out the provisions contained in paragraphs 1, 2, and 3 above.

The Specific Plan Amendment proposes to 1) Amend the Circulation Plan of the PVCCSP to remove an existing paper street in order to facilitate the proposed industrial warehouse project located within the Light Industrial Zone, and will not impact existing

land uses, including existing open space within the PVCCSP. The following maps have been revised to reflect the removal of the street from the PVCCSP:

The Specific Plan Amendment does not propose to change or revise any text or diagrams in these Chapters. As noted above, the Specific Plan Amendment proposes to revise Figures in Chapter 3 – Infrastructure Plan, to remove the paper street on the Project site from those maps where it is shown. The street will be vacated in order to facilitate the proposed industrial warehouse project.

Chapter 3 – Infrastructure Plan of the PVCCSP outlines public works projects within the PVCCSP with text and diagrams intended to guide and support development in the PVCCSP. As noted above, the project requires removal of a paper street detailed on several of the Figures contained within Chapter 3, in order to facilitate the proposed vacation of the street that will occur in connection with the proposed industrial warehouse project.

Section 3. Based on the forgoing, the information contained on the agenda submittal and supporting attachments/exhibits and all oral and written presentations and testimony made by City staff and members of the public presented at the public hearing on June 13, 2023, the City Council hereby approves Specific Plan Amendment 22-05053 (attached hereto and incorporated herein by this reference) removing a paper/undeveloped street from the PVCCSP Circulation Plan.
