AND CHAIN-OF-CUSTODY DOCUMENTATION***

## Laboratory Report

**Client:** Advantage Environmental Consultants, LLC  
**Client Address:** 145 Vallecitos De Oro, Suite 201  
San Marcos, California 92069

**Report Date:** 5/3/07  
**Lab Project Number:** 07228  
**Client Project Number:** 07-018A-SD

**Project Name:** National RV  
**Project Address:** ---  
Perris, California  
**Contact:** Jason Schen

**Dates Sampled:** 5/1/07  
**Dates Received:** 5/1/07  
**Dates Analyzed:** 5/2-3/07  
**Sample Matrix:** Soil

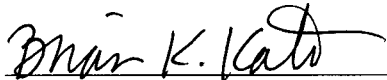

---

### Analyses Requested:

1. EPA 8015m – Total Petroleum Hydrocarbons with Carbon Chain Distribution (8015M)
2. EPA 8260B – Volatile Organic Compounds with Fuel Oxygenates

*Baseline* received samples collected from the project shown above. A Chain-of-Custody Record (COC) is attached.

All of the samples were analyzed for the parameters shown above per the COC. In this report, *Baseline* presents the results and a QA/QC summary for these analyses.

---

Approved

Brian K. Kato, Laboratory Manager

## **Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY**

**Reliance on information in Report:** This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

**License for use of information in Report:** No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

**Your Liability for misuse:** Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

**No warranty of Accuracy or Liability for ERIS:** The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

**Trademark and Copyright:** You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

<b>Violation Program:</b>	HW	<b>Violation Division:</b>	Riverside County Department of Env Health
<b>Citation:</b>	22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter 11, Section(s) 66261.7		
<b>Violation Notes:</b>			

Returned to compliance on 10/09/2018. OBSERVATION: Observed several 55 gallons metal drums outside which were empty and not labeled properly. CORRECTIVE ACTION: Owner/operator shall properly label all empty containers larger than 5 gallons with the dates they were emptied.

**Violation Description:**

Failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following:

- (e)(2)By reclaiming its scrap value onsite or shipping the container or inner liner to a person who reclaims its scrap value; or
- (3) By reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or
- (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or
- (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled.
- (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being emptied.

**Violation Notes:**

Returned to compliance on 10/09/2018. OBSERVATION: Observed one 55 gallon drum containing waste Hydraulic Oil and one 55 gallon drum containing waste Acetone without lock ring properly in place. CORRECTIVE ACTION: Owner/operator shall maintain all hazardous waste containers closed with locking ring or other seal in place when not adding/removing liquid/volatile hazardous waste.

**Violation Description:**

Failure to meet the following container management requirements:

- (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
- (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

**Violation Division:** Riverside County Department of Env Health

Returned to compliance on 10/09/2018. OBSERVATION: Observed one 55 gallon drum containing used absorbent on site without an accumulation start date. CORRECTIVE ACTION: Owner/operator shall ensure all hazardous wastes are transported off site within 180 days of the accumulation start date. Owner/operator shall have one 55 gallon metal drum containing waste absorbent properly hauled off site by a registered hazardous waste transporter.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:

- (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
- (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
- (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

**Violation Notes:**

Returned to compliance on 06/27/2018. OBSERVATION: Observed several boxes filled with waste aerosol cans and a 55 gallon metal drum on site without an accumulation start date. CORRECTIVE ACTION: Owner/operator shall ensure all hazardous wastes are transported off site within 180 days of the accumulation start date. Owner/operator shall have the boxes with waste aerosol cans and the 55 gallon hazardous waste drum properly hauled off site by a registered hazardous waste transporter.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:

- (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
- (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
- (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

**Citation:** 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)  
**Violation Notes:**

Returned to compliance on 06/10/2014.

**Violation Description:**

Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

**Violations**

**Violation Date:** 09/02/2020      **Violation Source:** CERS  
**Violation Program:** HW      **Violation Division:** Riverside County Department of Env Health  
**Citation:** 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173  
**Violation Notes:**

Returned to compliance on 10/29/2020. OBSERVATION: Observed one metal drum containing waste oil without cover/lid in place. CORRECTIVE ACTION: Owner/operator shall maintain all hazardous waste containers closed when not adding/removing hazardous waste.

**Violation Description:**

Failure to meet the following container management requirements:

- (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
- (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

<b>Citation:</b>	HSC 6.5 25250.19(c) - California Health and Safety Code, Chapter 6.5, Section(s) 25250.19(c)		
<b>Violation Notes:</b>			

Returned to compliance on 12/30/2020. OBSERVATION: Facility is recycling used oil. No proper documentation observed during inspection. One manifest for 1-28-20 was available on site. CORRECTIVE ACTION: Owner/operator shall complete proper certification for all used oil which is being recycled. Retain copies on site for a minimum of 3 years from date of disposal.

**Violation Description:**

"Failure to record in an operating log and retain for three years the following information for each shipment of recycled or exempted oil:

- 1) The name and address of the used oil recycling facility or generator claiming the oil meets the requirements of HSC 6.5 25250.1.
- 2) The name and address of the facility receiving the shipment.
- 3) The quantity of oil delivered.
- 4) The date of shipment or delivery.
- 5) A cross-reference to the records and documentation required under HSC 6.5 25250.1."

<b>Citation:</b>	40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31		
<b>Violation Notes:</b>			

Returned to compliance on 10/29/2020. OBSERVATION: Observed liquid in the secondary containment under the used oil drums and observed a metal drum approximately 30 gallons with a lid and full of used oil. CORRECTIVE ACTION: Owner/operator shall maintain the secondary containment dry and clean and store all waste drums closed, and manage according to Title 22 hazardous waste regulations. Submit a statement and supporting documentation (photos) explaining how this waste was managed to this department.

**Violation Description:**

Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

<b>Citation:</b>	Un-Specified		
<b>Violation Notes:</b>			

Returned to compliance on 12/04/2017.

**Violation Description:**

Hazardous Waste Generator Program - Administration/Documentation - General Local Ordinance

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

**Violations**

**Violation Date:** 10/29/2020 **Violation Source:** CERS  
**Violation Program:** HW **Violation Division:** Riverside County Department of Env Health  
**Citation:** HSC 6.5 25250.19(c) - California Health and Safety Code, Chapter 6.5, Section(s) 25250.19(c)  
**Violation Notes:**

Returned to compliance on 12/30/2020. See initial inspection on 9/2/2020.

**Violation Description:**

"Failure to record in an operating log and retain for three years the following information for each shipment of recycled or exempted oil:

- 1) The name and address of the used oil recycling facility or generator claiming the oil meets the requirements of HSC 6.5 25250.1.
- 2) The name and address of the facility receiving the shipment.
- 3) The quantity of oil delivered.
- 4) The date of shipment or delivery.
- 5) A cross-reference to the records and documentation required under HSC 6.5 25250.1."

#### SITE HISTORY:

The property is about 38 acres (Site) of former agricultural land that is currently open land (fallow since 1998). Two schools will be built on the Site. A middle school will be located on about 24 acres and an elementary school will be built on 14 acres. Crops previously grown on the Site included cover crops (alfalfa, hay, and wheat) and row crops (potatoes). Few pesticides were reportedly used during production and dairy cow manure was used as fertilizer.

# Unplottable Report

No unplottable records were found that may be relevant for the search criteria.

## Appendix: Database Descriptions

*Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:*

*"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."*

### **Standard Environmental Record Sources**

#### **Federal**

##### **Formerly Utilized Sites Remedial Action Program:**

[DOE FUSRAP](#)

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

**Government Publication Date: Mar 4, 2017**

##### **National Priority List:**

[NPL](#)

Sites on the United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

**Government Publication Date: Mar 30, 2022**

##### **National Priority List - Proposed:**

[PROPOSED NPL](#)

Sites proposed - by the EPA, the state agency, or concerned citizens - for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

**Government Publication Date: Mar 30, 2022**

##### **Deleted NPL:**

[DELETED NPL](#)

Sites deleted from the United States Environmental Protection Agency (EPA)'s National Priorities List. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

**Government Publication Date: Mar 30, 2022**

**SEMS List 8R Active Site Inventory:**

[SEMS](#)

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

**Government Publication Date: Apr 27, 2022**

**SEMS List 8R Archive Sites:**

[SEMS ARCHIVE](#)

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

**Government Publication Date: Apr 27, 2022**

**Inventory of Open Dumps, June 1985:**

[ODI](#)

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

**Government Publication Date: Jun 1985**

**EPA Report on the Status of Open Dumps on Indian Lands:**

[IODI](#)

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

**Government Publication Date: Dec 31, 1998**

**Comprehensive Environmental Response, Compensation and Liability Information System -**

[CERCLIS](#)

**CERCLIS:**

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

**Government Publication Date: Oct 25, 2013**

**CERCLIS - No Further Remedial Action Planned:**

[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

**Government Publication Date: Oct 25, 2013**

**CERCLIS Liens:**

[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

**Government Publication Date: Jan 30, 2014**

**RCRA CORRACTS-Corrective Action:**

[RCRA CORRACTS](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

**Government Publication Date: Apr 11, 2022**

**RCRA non-CORRACTS TSD Facilities:**

[RCRA TSD](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

**Government Publication Date: Apr 11, 2022**

**RCRA Generator List:**

[RCRA LQG](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

**Government Publication Date: Apr 11, 2022**

**RCRA Small Quantity Generators List:**

[RCRA SQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

**Government Publication Date: Apr 11, 2022**

**RCRA Very Small Quantity Generators List:**

[RCRA VSQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

**Government Publication Date: Apr 11, 2022**

**RCRA Non-Generators:**

[RCRA NON GEN](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

**Government Publication Date: Apr 11, 2022**

**RCRA Sites with Controls:**

[RCRA CONTROLS](#)

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

**Government Publication Date: Apr 11, 2022**

**Federal Engineering Controls-ECs:**

[FED ENG](#)

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date: Dec 30, 2021**

**Federal Institutional Controls- ICs:**

[FED INST](#)

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency ) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

**Government Publication Date: Dec 30, 2021**

**Land Use Control Information System:**

LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

**Government Publication Date: Sep 1, 2006**

**Institutional Control Boundaries at NPL sites:**

NPL IC

Boundaries of Institutional Control areas at sites on the United States Environmental Protection Agency (EPA)'s National Priorities List, or Proposed or Deleted, made available by the EPA's Shared Enterprise Geodata and Services (SEGS). United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy.

**Government Publication Date: Mar 30, 2022**

**Emergency Response Notification System:**

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

**Government Publication Date: 1982-1986**

**Emergency Response Notification System:**

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

**Government Publication Date: 1987-1989**

**Emergency Response Notification System:**

ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

**Government Publication Date: Dec 31, 2021**

**The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:**

FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date: Aug 20, 2021**

**FEMA Underground Storage Tank Listing:**

FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

**Government Publication Date: Dec 31, 2017**

**Facility Response Plan:**

FRP

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

**Government Publication Date: Dec 31, 2021**

**Delisted Facility Response Plans:**

DELISTED FRP

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

**Government Publication Date: Dec 31, 2021**

**Historical Gas Stations:**

[HIST GAS STATIONS](#)

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

**Government Publication Date: Jul 1, 1930**

**Petroleum Refineries:**

[REFN](#)

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

**Government Publication Date: Feb 4, 2022**

**Petroleum Product and Crude Oil Rail Terminals:**

[BULK TERMINAL](#)

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

**Government Publication Date: Feb 4, 2022**

**LIEN on Property:**

[SEMS LIEN](#)

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

**Government Publication Date: Apr 27, 2022**

**Superfund Decision Documents:**

[SUPERFUND ROD](#)

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

**Government Publication Date: May 3, 2022**

**State**

**State Response Sites:**

[RESPONSE](#)

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

**Government Publication Date: May 30, 2022**

**EnviroStor Database:**

[ENVIROSTOR](#)

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

**Government Publication Date: May 30, 2022**

**Delisted State Response Sites:**

[DELISTED ENVS](#)

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

**Government Publication Date: May 30, 2022**

**Solid Waste Information System (SWIS):**

[SWF/LF](#)

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

**Government Publication Date: Feb 2, 2022**

**Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels:**

[SWRCB SWF](#)

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

**Government Publication Date: Sep 20, 2006**

**Waste Management Unit Database:**

WMUD

The Waste Management Unit Database System tracks and inventories waste management units. CCR Title 27 contains criteria stating that Waste Management Units are classified according to their ability to contain wastes. Containment shall be determined by geology, hydrology, topography, climatology, and other factors relating to the ability of the Unit to protect water quality. Water Code Section 13273.1 requires that operators submit a water quality solid waste assessment test (SWAT) report to address leak status. The WMUDS was last updated by the State Water Resources control board in 2000.

**Government Publication Date: Jan 1, 2000**

**EnviroStor Hazardous Waste Facilities:**

HWP

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

**Government Publication Date: May 30, 2022**

**Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report:**

SWAT

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

**Government Publication Date: Dec 31, 1995**

**Construction and Demolition Debris Recyclers:**

C&D DEBRIS RECY

This listing of Construction and Demolition Debris Recyclers is maintained by the California Intergrated Waste Management Board-common C&D materials include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.

**Government Publication Date: Jun 20, 2018**

**Recycling Centers:**

RECYCLING

This list of Certified Recycling Centers that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Apr 12, 2022**

**Listing of Certified Processors:**

PROCESSORS

This list of Certified Processors that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Apr 12, 2022**

**Listing of Certified Dropoff, Collection, and Community Service Programs:**

CONTAINER RECY

This list of Certified Dropoff, Collection, and Community Service Programs (non-buyback) operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Apr 12, 2022**

**Land Disposal Sites:**

LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

**Government Publication Date: Feb 15, 2022**

**Leaking Underground Fuel Tank Reports:**

LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

**Government Publication Date: Feb 15, 2022**

**Delisted Leaking Storage Tanks:**

DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

**Permitted Underground Storage Tank (UST) in GeoTracker:**

UST

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: Apr 25, 2022

**Proposed Closure of Underground Storage Tank Cases:**

UST CLOSURE

List of UST cases that are being considered for closure by either the California Environmental Protection Agency, State Water Resources Control Board or the Executive Director that have been posted for a 60-day public comment period.

Government Publication Date: May 5, 2021

**Historical Hazardous Substance Storage Information Database:**

HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

**Statewide Environmental Evaluation and Planning System:**

UST SWEEPS

The Statewide Environmental Evaluation and Planning System (SWEEPS) is a historical listing of active and inactive underground storage tanks made available by the California State Water Resources Control Board (SWRCB).

Government Publication Date: Oct 1, 1994

**Aboveground Storage Tanks:**

AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

**SWRCB Historical Aboveground Storage Tanks:**

AST SWRCB

A list of aboveground storage tanks made available by the California State Water Resources Control Board (SWRCB). Effective January 1, 2008, the Certified Unified Program Agencies (CUPAs) are vested with the responsibility and authority to implement the Aboveground Petroleum Storage Act (APSA).

Government Publication Date: Dec 1, 2007

**Oil and Gas Facility Tanks:**

TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

Government Publication Date: Apr 4, 2022

**Delisted Storage Tanks:**

DELISTED TNK

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: May 25, 2022

**California Environmental Reporting System (CERS) Tanks:**

CERS TANK

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

Government Publication Date: Apr 5, 2022

**Delisted California Environmental Reporting System (CERS) Tanks:**

DELISTED CTNK

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

Government Publication Date: Apr 5, 2022

**Historical Hazardous Substance Storage Container Information - Facility Summary:**

[HIST TANK](#)

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

**Government Publication Date: May 27, 1988**

**Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions:**

[LUR](#)

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

**Government Publication Date: May 30, 2022**

**CALSITES Database:**

[CALSITES](#)

This historical database was maintained by the Department of Toxic Substance Control (DTSC) for more than a decade. CALSITES contains information on Brownfield properties with confirmed or potential hazardous contamination. In 2006, DTSC introduced EnviroStor as the latest Brownfields site database.

**Government Publication Date: May 1, 2004**

**Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions:**

[HLUR](#)

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

**Government Publication Date: Feb 18, 2021**

**Deed Restrictions and Land Use Restrictions:**

[DEED](#)

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

**Government Publication Date: Feb 15, 2022**

**Voluntary Cleanup Program:**

[VCP](#)

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

**Government Publication Date: May 30, 2022**

**GeoTracker Cleanup Program Sites:**

[CLEANUP SITES](#)

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

**Government Publication Date: Feb 15, 2022**

**Delisted Cleanup Program Sites:**

[DELISTED CLEANUP](#)

A list of Cleanup Program sites which were once included - and have since been removed from - the list of Cleanup Program Sites in GeoTracker. GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

**Government Publication Date: Feb 15, 2022**

**Delisted County Records:**

[DELISTED COUNTY](#)

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

**Government Publication Date: Jun 3, 2022**

## **Tribal**

**Leaking Underground Storage Tanks (LUSTs) on Indian Lands:**  
LUSTs on Tribal/Indian Lands in Region 9, which includes California.  
**Government Publication Date: Oct 12, 2021**

INDIAN LUST

**Underground Storage Tanks (USTs) on Indian Lands:**  
USTs on Tribal/Indian Lands in Region 9, which includes California.  
**Government Publication Date: Oct 12, 2021**

INDIAN UST

**Delisted Tribal Leaking Storage Tanks:**  
Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.  
**Government Publication Date: Oct 12, 2021**

DELISTED ILST

**Delisted Tribal Underground Storage Tanks:**  
Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.  
**Government Publication Date: Oct 13, 2021**

DELISTED IUST

## **County**

### **Riverside County - Local Oversight Program List:**

A list of Leaking Underground Storage Tank (LUST) facilities in Riverside County. This list is made available by Riverside County Department of Environmental Health. Environmental Cleanup Program provides oversight of assessments and cleanups at properties that have been, or may have been, contaminated with hazardous substances from LUSTs or releases associated with other commercial/industrial use.  
**Government Publication Date: Jan 18, 2022**

LOP RIVERSIDE

### **Riverside County - Underground Storage Tanks List:**

A list of registered Underground Storage Tank (UST) sites in Riverside County. This list is made available by Riverside County Department of Environmental Health. The Hazardous Materials Management Branch (HMMB) regulates and oversees the inspections of constructions, repairs, upgrades, system operation and removal of UST systems.  
**Government Publication Date: Jan 18, 2022**

UST RIVERSIDE

## **Additional Environmental Record Sources**

### **Federal**

#### **Facility Registry Service/Facility Index:**

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).  
**Government Publication Date: Nov 2, 2020**

FINDS/FRS

#### **Toxics Release Inventory (TRI) Program:**

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.  
**Government Publication Date: Aug 24, 2021**

TRIS

#### **Perfluorinated Alkyl Substances (PFAS) Releases:**

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

PFAS TRI

**PFOA/PFOS Contaminated Sites:**

[PFAS NPL](#)

List of National Priorities List (NPL) and related Superfund Alternative Agreement (SAA) sites where PFOA or PFOS contaminants have been found in water and/or soil. The site listing is provided by the Federal Environmental Protection Agency (EPA).

Government Publication Date: Apr 15, 2022

**Perfluorinated Alkyl Substances (PFAS) Water Quality:**

[PFAS WATER](#)

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

**SSEHRI PFAS Contamination Sites:**

[PFAS SSEHRI](#)

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Disclaimer: The source conveys this database undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Limited location details are available with this data. Access the following for the most current informations <https://pfasproject.com/pfas-contamination-site-tracker/>

Government Publication Date: Dec 12, 2019

**National Response Center PFAS Spills:**

[ERNS PFAS](#)

National Response Center (NRC) calls from 1990 to the most recent complete calendar year where there is indication of Aqueous Film Forming Foam (AFFF) usage. NRC calls may reference AFFF usage in the "Material Involved" or "Incident Description" fields. Data made available by the US Environmental Protection Agency (EPA). Disclaimer: dataset may include initial or misidentified incident data not yet validated or investigated by a federal/state response agency.

Government Publication Date: Feb 23, 2022

**Hazardous Materials Information Reporting System:**

[HMIRS](#)

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Sep 1, 2020

**National Clandestine Drug Labs:**

[NCDL](#)

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Nov 22, 2021

**Toxic Substances Control Act:**

[TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

**Hist TSCA:**

[HIST TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

**Government Publication Date: Dec 31, 2006**

**FTTS Administrative Case Listing:**

[FTTS ADMIN](#)

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

**Government Publication Date: Jan 19, 2007**

**FTTS Inspection Case Listing:**

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

**Government Publication Date: Jan 19, 2007**

**Potentially Responsible Parties List:**

[PRP](#)

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

**Government Publication Date: Mar 30, 2022**

**State Coalition for Remediation of Drycleaners Listing:**

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRD no longer maintains this data, refer to applicable state source data where available.

**Government Publication Date: Nov 08, 2017**

**Integrated Compliance Information System (ICIS):**

[ICIS](#)

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

**Government Publication Date: Apr 30, 2022**

**Drycleaner Facilities:**

[FED DRYCLEANERS](#)

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) online search. The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

**Government Publication Date: May 5, 2021**

**Delisted Drycleaner Facilities:**

[DELISTED FED DRY](#)

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

**Government Publication Date: May 5, 2021**

**Formerly Used Defense Sites:**

[FUDS](#)

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

**Government Publication Date: May 26, 2021**

**Former Military Nike Missile Sites:**

[FORMER NIKE](#)

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

**Government Publication Date: Dec 2, 1984**

**PHMSA Pipeline Safety Flagged Incidents:**

**PIPELINE INCIDENT**

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

**Government Publication Date: Jul 7, 2020**

**Material Licensing Tracking System (MLTS):**

**MLTS**

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

**Government Publication Date: May 11, 2021**

**Historic Material Licensing Tracking System (MLTS) sites:**

**HIST MLTS**

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

**Government Publication Date: Jan 31, 2010**

**Mines Master Index File:**

**MINES**

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

**Government Publication Date: Feb 1, 2022**

**Surface Mining Control and Reclamation Act Sites:**

**SMCRA**

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

**Government Publication Date: Dec 18, 2020**

**Mineral Resource Data System:**

**MRDS**

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

**Government Publication Date: Mar 15, 2016**

**Uranium Mill Tailings Radiation Control Act Sites:**

**URANIUM**

The Legacy Management Office of the Department of Energy (DOE) manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The L.M. Office manages this database of sites registered under the Uranium Mill Tailings Control Act (UMTRCA).

**Government Publication Date: Mar 4, 2017**

**Alternative Fueling Stations:**

**ALT FUELS**

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

**Government Publication Date:** May 16, 2022

**Superfunds Consent Decrees:**

CONSENT DECREES

A list of Superfund consent decrees made available by the Department of Justice, Environment & Natural Resources Division (ENRD).

**Government Publication Date:** May 18, 2022

**Air Facility System:**

AFS

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

**Government Publication Date:** Oct 17, 2014

**Registered Pesticide Establishments:**

SSTS

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

**Government Publication Date:** Mar 30, 2022

**Polychlorinated Biphenyl (PCB) Transformers:**

PCBT

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

**Government Publication Date:** Oct 15, 2019

**Polychlorinated Biphenyl (PCB) Notifiers:**

PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

**Government Publication Date:** Jan 20, 2022

**State**

**Dry Cleaning Facilities:**

DRYCLEANERS

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

**Government Publication Date:** Dec 20, 2021

**Delisted Drycleaners:**

DELISTED DRYCLEANERS

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

**Government Publication Date:** Feb 28, 2020

**Non-Toxic Dry Cleaning Incentive Program:**

DRYC GRANT

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

**Government Publication Date:** Feb 28, 2020

**Per- and Polyfluoroalkyl Substances (PFAS):**

PFAS

List of sites from the State Water Resources Control Board (SWRCB)'s GeoTracker at which one or more of the potential contaminants of concern are in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

**Government Publication Date: Feb 15, 2022**

**PFOA/PFOS Groundwater:**

PFAS GW

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.

**Government Publication Date: Apr 27, 2022**

**Hazardous Waste and Substances Site List - Site Cleanup:**

HWSS CLEANUP

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

**Government Publication Date: May 20, 2021**

**Toxic Pit Cleanup Act Sites:**

TOXIC PITS

The Toxic Pits Cleanup Act (TPCA) list identifies sites suspected of containing hazardous substances where cleanup has not yet been completed. This list was maintained by the State Water Resources Control Board (SWRCB), is no longer maintained, and updates are not planned.

**Government Publication Date: Jul 1, 1995**

**List of Hazardous Waste Facilities Subject to Corrective Action:**

DTSC HWF

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

**Government Publication Date: Jul 18, 2016**

**EnviroStor Inspection, Compliance, and Enforcement:**

INSP COMP ENF

A list of permitted facilities with inspections and enforcements tracked in the Department of Toxic Substance Control (DTSC) EnviroStor.

**Government Publication Date: Apr 29, 2021**

**School Property Evaluation Program Sites:**

SCH

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

**Government Publication Date: May 30, 2022**

**California Hazardous Material Incident Report System (CHMIRS):**

CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

**Government Publication Date: Feb 8, 2022**

**Historical California Hazardous Material Incident Report System (CHMIRS):**

HIST CHMIRS

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

**Government Publication Date: Jan 1, 1993**

**Hazardous Waste Manifest Data:**

HAZNET

A list of hazardous waste manifests received each year by Department of Toxic Substances Control (DTSC). The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

**Government Publication Date: Oct 24, 2016**

**Historical Hazardous Waste Manifest Data:**

HIST MANIFEST

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

**Government Publication Date: Dec 31, 1992**

**DTSC Registered Hazardous Waste Transporters:**

HW TRANSPORT

The California Department of Toxic Substances Control (DTSC) maintains this list of Registered Hazardous Waste Transporters.

**Government Publication Date: Oct 19, 2020**

**Registered Waste Tire Haulers:**

WASTE TIRE

This list of registered waste tire haulers is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Apr 12, 2022**

**California Medical Waste Management Program Facility List:**

MEDICAL WASTE

This list of Medical Waste Management Program Facilities is maintained by the California Department of Public Health. The Medical Waste Management Program (MWMP) regulates the generation, handling, storage, treatment, and disposal of medical waste by providing oversight for the implementation of the Medical Waste Management Act (MWMA). The MWMP permits and inspects all medical waste off-site treatment facilities, medical waste transporters, and medical waste transfer stations. This list contains transporters, treatment, and transfer facilities.

**Government Publication Date: Dec 31, 2020**

**Historical Cortese List:**

HIST CORTESE

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

**Government Publication Date: Nov 13, 2008**

**Cease and Desist Orders and Cleanup and Abatement Orders:**

CDO/CAO

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

**Government Publication Date: Dec 6, 2021**

**California Environmental Reporting System (CERS) Hazardous Waste Sites:**

CERS HAZ

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

**Government Publication Date: Apr 5, 2022**

**Delisted Environmental Reporting System (CERS) Hazardous Waste Sites:**

DELISTED HAZ

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

**Government Publication Date: Nov 29, 2018**

**Sites in GeoTracker:**

GEOTRACKER

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

**Government Publication Date: Feb 15, 2022**

**Mines Listing:**

MINE

This list includes mine site locations extracted from the Mines Online database, maintained by the California Department of Conservation. Mines Online (MOL) is an interactive web map designed with GIS features that provide information such as the mine name, mine status, commodity sold, location, and other mine specific data. Please note: Mine location information is provided to assist experts in determining the location of mine operators in accordance with California Civil Code section 1103.4 and reflects information reported by mine operators in annual reports provided under Public Resources Code section 2207. While the Division of Mine Reclamation (DMR) attempts to populate MOL with accurate location information, the DMR cannot guarantee the accuracy of operator reported location information.

**Government Publication Date: Dec 17, 2021**

**Recorded Environmental Cleanup Liens:**

[LIEN](#)

The California Department of Toxic Substance Control (DTSC) maintains this list of liens placed upon real properties. A lien is utilized by the DTSC to obtain reimbursement from responsible parties for costs associated with the remediation of contaminated properties.

**Government Publication Date: May 4, 2022**

**Waste Discharge Requirements:**

[WASTE DISCHG](#)

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

**Government Publication Date: Feb 15, 2022**

**Toxic Pollutant Emissions Facilities:**

[EMISSIONS](#)

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

**Government Publication Date: Dec 31, 2019**

**Clandestine Drug Lab Sites:**

[CDL](#)

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/ clandestine drug laboratories.

**Government Publication Date: Jan 19, 2021**

**Tribal**

**No Tribal additional environmental record sources available for this State.**

**County**

**Riverside County - Hazardous Waste Generator Sites List:**

[HWG RIVERSIDE](#)

A list of Hazardous Waste Generator Sites in the County of Riverside. This list is made available by Riverside County Department of Environmental Health which has been designated as the CUPA for the County.

**Government Publication Date: Jan 18, 2022**

**Riverside County - Disclosure Facility List:**

[HZH RIVERSIDE](#)

A list of facilities disclosed to Riverside County Department of Environmental Health (DEH). This list is made available by Riverside County DEH which has been designated as the CUPA for the County. A business is required to establish and submit a Business Plan if the facility handles hazardous material equal to or greater than 55 gallons, 500 pounds or 200 cubic feet at any time during the year.

**Government Publication Date: Jan 18, 2022**

**Riverside County - Medical Waste Facilities:**

[MED WST RIVERSIDE](#)

This list of active and inactive medical waste facilities is maintained by the County of Riverside Department of Environmental Health.

**Government Publication Date: Feb 9, 2022**

**Riverside County - California Accidental Release Prevention Program Sites:**

[RMP RIVERSIDE](#)

This list of Riverside County California Accidental Release Prevention Program sites is maintained by the County of Riverside Department of Environmental Health. AB 3777 was enacted in 1986 to minimize potential emergencies involving acutely hazardous materials by requiring facilities which handle these materials to submit Risk Management Prevention Plans. The Riverside County Department of Environmental Health Hazardous Materials Branch began implementation of this Program County-wide in January 1991. All cities within Riverside County are included in this list.

**Government Publication Date: Jan 18, 2022**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

This permit becomes null and void if work or construction is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at anytime after work is commenced. I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

CERTIFICATE OF EXEMPTION FROM WORKER'S COMPENSATION INSURANCE

(This section need not be completed if the permit is for one hundred dollars (\$100) or less)

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California

Date \_\_\_/\_\_\_/\_\_\_ Applicant Signature

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to Workers' Compensation provisions of the Labor Code, you Must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ.C.).

Lender's Name

Lender's Address

I certify that I have read this application and state that the information contained herein is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorized representatives of this City to enter upon the above-mentioned property for inspection purposes.

Signature of Applicant or Agent

Date

Will the applicant or future building occupant handle hazardous material or a mixture containing a hazardous material equal to or greater than the amounts specified on the hazardous materials information guide?

Will the proposed building or modified facility be within 1000 feet of the outer boundary of a school?

Will the intended use of the building by the applicant or future building occupant require a permit for construction or modification from the South Coast Air Quality Management District (SCAQMD)?

I have read the hazardous material information guide and the SCAQMD permitting checklist. I understand my requirements under the State of California Health and Safety Code, Section 25505, 25533, and 25534 concerning hazardous materials reporting.

PRINT NAME

OWNER OR AUTHORIZED AGENT X

WORKERS' COMPENSATION DECLARATION

- I hereby affirm under penalty of perjury one of the following declarations:
I have and will maintain a certificate of consent to self-insure for workers' compensation...
I have will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code...

Contractor Signature

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason ( Sec. 7031.5 Business and Professions Code. Any city or Country which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractor's License Law...)

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044 Business and Professions Code. The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

I, as owner of the property, an exclusively contracting with licensed contractors to construct the project (Sec. 7044 Business and Professions Code. The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) license pursuant to the Contractors License Law).

I am exempted Section B.& P.C. for this reason

Subject: **Sign Permit #11-03-0002 for Wall Sign for Recyclewise at 200 Sinclair St.**

Dear applicant:

The City of Perris Development Services, Planning Division, approved the above reference sign on March 3, 2011 subject to the attached conditions of approval and stamped exhibits.

Prior to the issuance of building or occupancy permits, all the respective Conditions of Approval need to be complied with. By signing this letter and returning it to the Planning Division, the applicant and the property owner acknowledge the requirements of the City prior to the issuance of any permits and agree to all the Conditions of Approval. This letter needs to be signed and returned to the Planning Division prior to the issuance of any permits.

If you require any additional information, please do not hesitate to contact me at (951) 943-5003 x 253.

Sincerely,

Ilene Paik  
Assistant Planner

NOTES (HASS):

- (1) Calculations were performed by the HASS 8.2 computer program under license no. 27030354 granted by HRS Systems, Inc. 208 South Public Square Petersburg, TN 37144 (931) 659-9760

DATE: 8/25/2011

C:\PROGRAM FILES\HRS SYSTEMS\HASS82\AVALON2.SDF

JOB TITLE: AVALON SHUTTERS, PERRIS DRYING AREA

- (2) The system has been calculated to provide an average imbalance at each node of 0.002 gpm and a maximum imbalance at any node of 0.197 gpm.
- (3) Total pressure at each node is used in balancing the system. Maximum water velocity is 16.9 ft/sec at pipe 13.
- (4) Items listed in bold print on the cover sheet are automatically transferred from the calculation report.

**OWNER-BUILDER DECLARATION**

I hereby affirm that I am exempt from the Contractor's License Law for the following reason ( Sec. 7031.5 Business and Professions Code. Any city or Country which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more then five hundred dollars (\$500):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044 Business and Professions Code. The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

I, as owner of the property, an exclusively contracting with licensed contractors to construct the project (Sec. 7044 Business and Professions Code. The Contractor's License Law does not apply to an owner of property who builds or improves thereon and who contracts for such projects with a contractor(s) license pursuant to the Contractors License Law).

I am exempted Section \_\_\_\_\_ B.& P.C. for this reason \_\_\_\_\_

Plans Examiner M.S. Zabala	Additional Approvals Required	

The Building and Safety Division has completed the plan review process for your proposed project and have found that the following clarifications must be provided prior to permit issuance. Please make all corrections on the original tracings. Plans prepared by a licensed architect or registered engineer must be stamped and signed prior to submitting to Building and Safety for further review.

Your response to all required clarifications will simplify the re-check process. ***Provide a written response to each item listed below with the corrected plans, calculations and reports when you submit for the next review. Corrected plans will not be accepted for subsequent reviews if not accompanied by these sets.***

The approval of plans and specifications does not grant the authority to violate or cancel any ordinance or law. Any act of omission or failure to bring items of correction to the applicant's attention does not constitute grounds for waiver of requirements. If there are any questions regarding this correction list, please call the Building and Safety Division at (951) 443-1029, Monday through Thursday from 8:00 a.m. to 6:00 p.m. Thank you for your cooperation.

**Return this correction list, the previously submitted plans, calculations and specifications with [Plan Number] sets of revised plans, calculations and specifications after corrections have been made. Plans may not be accepted for review if documentation is lacking or incomplete.**

## Building and Safety Records Request

---

**Records** <records@rivco.org>  
To: "jw@weisenviro.com" <jw@weisenviro.com>

Tue, Jun 21, 2022 at 3:10 PM

Hello James,

After a thorough search of our records, we are unable to locate any building records for this address or APN.

Our records date back to 1963. All building permit records prior to 1963 have been destroyed.

Also, this address is now located in the City of Perris's jurisdiction. You may want to contact their Building Department at (951) 943-5003 to check for any permits they may have issued.

If you have any questions contact us at (951) 955-2017 or with a reply email.

Thank you,

**Gene**

### HAZARDOUS MATERIALS BUSINESS EMERGENCY PLAN AND INVENTORY CERTIFICATION FORM

Business Name National R.V. Inc Facility # 89073  
 Owner/Operator Name National, R.V. Inc Telephone 951-943-6007  
 Facility Address 100 W. Sinclair St.  
 City Peris State CA Zip Code 92571

#### Annual Business Emergency Plan Inventory Review and Update

The information contained on the annual inventory form most recently submitted to the administering agency is complete, accurate, and up to date and complies with all of the following statements:

1. There has been no change in the quantity of any hazardous material as reported in the most recently submitted annual inventory;
2. No hazardous materials subject to the inventory requirements of Chapter 6.95 H&SC are being handled that are not listed on the most recently submitted annual inventory form; and
3. The most recently submitted annual inventory form contains the information required by sec. 11022 of Title 42 of the United States Code. (The County/OES form 2731 meets this requirement)

The inventory as previously reported has changed. Attached are new inventory reporting forms for all changes.

#### Triennial (3 Year) Business Emergency Plan Review and Certification

I certify that the Business Emergency Plan has been reviewed and the information contained in it is accurate and complete as of this date \_\_\_\_\_

I certify that I have reviewed the Business Emergency Plan and have updated the following items (updated items are attached):

- Emergency contacts-names and/or telephone numbers.
- Site and/or facility map(s).
- Emergency procedures.
- Other Information: \_\_\_\_\_

Notification should be made to this agency within 30 days if any of the following events occur: change of ownership; change of business name; mailing address; phone number; location; emergency contact person; 100% or more increase in the quantity of a disclosed material; or any handling of a previously undisclosed material subject to regulation. A copy of this form should be kept at the business and available for review upon request of this agency. This form can only be used if you have already submitted the most current version of the Chemical Inventory Form (OES Form 2731). If your business falls under EPCRA/SARA Title III, this form does not meet the annual inventory reporting requirements.

I certify under penalty of law that I have examined and am familiar with the information submitted in this and all attached documents, that the information provided herein is true, accurate, and complete to the best of my knowledge.

# HAZARDOUS MATERIALS BUSINESS EMERGENCY PLAN EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items; however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

## 1. EMERGENCY RESPONSE PLANS AND PROCEDURES

### A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately call:

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(909) 358-5055
CDF/Banning Fire Service .....	(909) 922-3210
City of Corona Fire Department .....	(909) 736-2220
City of Riverside Fire Department.....	(909) 826-5321

Person(s) within the facility required to respond to a hazardous materials incident:

Name: <u>Shay Gomez</u>	Telephone: <u>(909) 943-6007 X273</u>
Name: <u>Jeff Goodrick</u>	Telephone: <u>(909) 943-6007 X275</u>

### B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Name: US HEALTH WORKS  
Address: 6485 Day Street Suite 302  
City: Moreno Valley  
Phone: (909) 653-5291

## 2. PREVENTION

Describe the kinds of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to **help prevent** an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous materials at your business.

Hazardous materials present at National RV consist of various petroleum products. The chemicals on the most part, present only nominal fire hazards and disposal concerns. All of the hazardous materials are contained and stored in compliance with current laws and regulations. Prevention of possible health hazards is accomplished by implementation of the contingency plan.

---

## 3. MITIGATION

Describe the procedures to be followed to **reduce the severity** of a release of threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employee or equipment at your business or that violate any workers safety laws.

All hazardous materials are contained and stored in compliance with current laws and regulations. There is no combining of incompatible materials. Additional preventative measures: 1) proper container labeling; 2) housekeeping program. The immediate response to a fire, spill or airborne release is contact a supervisor. In the event a spill results in a fire, unmanageable by response staff, 911 will be called and agency emergency response personnel dispatched.

## 4. ABATEMENT

Describe what you would do to **stop and remove** each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Each employee who works with or around the hazardous materials is trained in the response to a release. This training includes proper handling, response, notification, and mitigation procedures for each product. If a minor release occurs, the individual discovering the incident should attempt to locate and eliminate the source. If possible, try to stop or at least contain the release. This may be as simple as shutting off a valve. In the event the leak cannot be stopped or contained by handheld containment measures, the employee shall notify his supervisor, who will in turn have the spill contained by an earthen dike by spill response crew. The source of the spill shall then be further assessed and mitigated.

---

5. **EVACUATION**

Describe the procedures to be followed for immediate notification and evacuation of your facility:

Employees are notified via PA system and ordered to follow assigned evacuation routes out of the building. They are then required to assemble in staging areas.

---

---

6. **EARTHQUAKES**

Identify the areas and equipment in your business, which would require **immediate inspection or isolation** due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

The area where hazardous materials and waste are stored will be checked immediately. Areas will be thoroughly inspected. Utility shut-offs will be tested. For further emergency procedures, please refer to the Emergency Action Plan in the appendix.

---

---

7. **HAZARDOUS WASTE CONTINGENCY**

Specific procedures for prevention, mitigation and abatement of a release of **hazardous waste** generated at your business. This section only applies to hazardous waste generators.

All hazardous material wastes are contained and stored in compliance with current laws and regulations. There is no combining of incompatible wastes. All hazardous waste is recycled or removed off-site periodically as required by a certified waste hauler.

---

---

8. **UNAUTHORIZED RELEASE RESPONSE PLAN**

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an **underground storage tank (UST)**. The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

There are no USTs on site at this facility.

---

---

# Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

- A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
- B. Procedures for coordination with local emergency response organizations;
- C. Proper use of personal protective equipment;
- D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
- E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
- F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
- G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
- H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

## **All employee training shall be documented and updated annually**

### 1. Personnel

- A. Are there any specially trained hazardous materials emergency response personnel at your business?    Yes                       No                       Number Trained
- B. Do you have decontamination capabilities for victims of exposure to hazardous materials at your business?    Yes                       No                       Type of Decon
- C. Do you have personnel that will provide site security at your business during and after a hazardous materials incident?    Yes                       No

### 2. Equipment

- A. List the type and location of equipment that can or will be used for response to hazardous materials incidents at your facility.  
Absorbents, eye wash stations, first aid kits, spill kits

## POST FOR EMPLOYEES

### HAZARDOUS MATERIALS BUSINESS EMERGENCY PLAN: EMERGENCY NOTIFICATION

During an emergency involving a release or a threatened release of a hazardous material you must notify appropriate agencies. Information you should be prepared to supply includes:

1. Name and telephone number of the reporting party;
2. Name and address of business;
3. Time and type of release (e.g., damaged containers, malfunctioning equipment, etc.);
4. Name and quantity of material (s) involved;
5. Extent and number of injuries;
6. Action taken or being taken to mitigate or reduce emergency;
7. Potential hazards to human health or the environment surrounding the business.

# HAZARDOUS MATERIALS BUSINESS EMERGENCY PLAN EMERGENCY PROCEDURES

Emergency response plans and procedures are an integral part of the HMBEP. By taking the time to develop plans and procedures for your business, you will avoid complications resulting from inaction or misguided action during an emergency. Once the plans and procedures are developed, your employees will have an informative guide to follow in the event of an emergency. You must address each of the following items, however, the amount of detail you provide will depend upon the size and nature of the business, the damage potential of the hazardous materials handled and the location of the business with respect to residential or other populated areas.

## 1. EMERGENCY RESPONSE PLANS AND PROCEDURES

### A. If you have a release or threatened release of hazardous materials, your business is required by state law to provide immediate notification to the following agencies:

Immediately call:

Local emergency response personnel (Fire, paramedics, police or sheriff)	911
State Office of Emergency Services	(800) 852-7550 or (916) 262-1621

Immediately call the appropriate jurisdiction:

The County of Riverside Hazardous Materials Management Division:	(951) 358-5055
CDF/Banning Fire Service .....	(951) 922-3210
City of Corona Fire Department .....	(951) 736-2220
City of Riverside Fire Department .....	(951) 826-5321

Person(s) within the business required responding to a hazardous materials incident:

Name: <u>Brent Vollmer</u>	Telephone: <u>(951) 905-9905</u>
Name: <u>Octavio Gomez</u>	Telephone: <u>(951) 905-9910</u>

### B. Identify the local emergency medical facility that will be used by your business in the event of an injury caused by the release of a hazardous material:

Name:	<u>U.S. Health Work</u>
Address:	<u>16420 Perris Blvd.</u>
City:	<u>Moreno Valley, CA 92551</u>
Phone:	<u>951-571-2450</u>

## 2. PREVENTION

Describe the kind of hazards associated with the materials present at your business. Provide information on the steps taken at your business, or the policies or procedures now in place, to **help prevent** an accidental release of a hazardous material. Issues for discussion may include safety, storage, and containment procedures. Be specific for each type of hazardous material at your business.

Hazardous materials present at facility consist of various paint, resin, solvent, welding gases (acetylene, oxygen, carbon dioxide, and argon). The chemicals on the most part, present only nominal fire hazards and disposal concerns. All of the hazardous materials are contained and stored in compliance with current laws and regulations. Prevention of possible health hazards is accomplished by implementation of the contingency plan. Hazardous materials classified as flammable and combustible are kept in flammable storage cabinets as well as spill pallets. Incompatible materials are segregated and stored separately in compatible groups and hazard class. Employees who use these materials must first read the appropriate MSDS corresponding with the hazardous material before it's use. Welding gases when not in use are chained with a twenty-foot separation between acetylene and the other gases when stored.

## 3. MITIGATION

Describe the procedures to be followed to **reduce the severity** of a release or threatened release of a hazardous material at your business. The procedures should detail the actions to be taken by employees to stop a release, contain a release, or to reduce the problems associated with a release. What is your immediate response to a spill, fire, explosion or airborne release at your business? Do not write procedures that exceed the capabilities of employees or equipment at your business or that violate any worker safety laws.

All hazardous materials are contained and stored in compliance with current laws and regulations. Hazardous materials classified as flammable and combustible are kept in flammable storage cabinets as well as spill pallets. There is no combining of incompatible materials. Additional preventative measures are:

1. Proper container labeling.
2. Housekeeping program.

The immediate response to a fire, spill, or airborne release is to contact a supervisor and/or emergency coordinator. It is our policy that associates will clean up their own small spills and/or leaks that occur within their work areas and which consist of hazardous materials in which they are familiar with under the supervision of management. In the event of a small fire, trained designated associates will respond with fire extinguishers. Absorbent for clean-up is kept in the maintenance department and in each department. Empty 55-gallon drums are kept in reserve in the event a spill needs to be cleaned and stored. In the event a spill results in a fire unmanageable by response staff, 911 will be called and agency emergency response personnel dispatched.

#### 4. ABATEMENT

Describe what you would do to **stop** and **remove** each hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your business? What aspects of the response are beyond your ability and need to be handled by others? Who would you call to handle the release?

Each employee who works with or around the hazardous materials is trained in the response to a release. This training includes proper handling, response, notification, and mitigation procedures for each product. If a minor release occurs, the individual discovering the incident should attempt to locate and eliminate the source. If possible, try to stop or at least contain the release. This may be as simple as shutting off a valve. In the event the leak cannot be stopped or contained by handheld containment measures, the employee shall notify his/her supervisor and/or emergency coordinator, who will in turn have the spill contained by an absorbent by spill response crew. The source of the spill shall then be further assessed and mitigated. All contaminated absorbent will be containerized and removed by a certified waste hauler. Hazardous materials and/or hazardous wastes which are released in a quantity exceeds the RQ value or pose an immediate threat to human life or limb as determined by the emergency response coordinator, will be cleaned up by a remedial/emergency response service or a hazardous material spill response team associated with the local fire department. We currently contracted HCI Environmental & Engineering Service (800) 988-4424 as the outside emergency response team.

#### 5. EVACUATION

Describe the procedures to be followed for immediate notification and evacuation of your business:

In the event of an emergency requiring immediate evacuation from the facility, verbal notification will instruct all employees, customers, visitors, and others who are in the manufacturing area to evacuate to the designated Emergency Evacuation Staging Area documented on the facility Evacuation Map.

All employees, customers, visitors, and others in the front office will evacuate through the main entrance at the east side of the building and out to the parking lot to the designated Emergency Evacuation Staging Area. Notification will be verbal.

#### 6. EARTHQUAKES

Identify the areas and equipment in your business, which would require **immediate inspection or isolation** due to their vulnerability to earthquake related ground motion. Check for equipment such as gas cylinders, piping, drums, etc., that may need to be secured or spillage that may require mitigation or abatement.

The area where hazardous materials and waste are stored will be inspected immediately. Gasoline, diesel, and propane tanks will be thoroughly inspected. Utility shut-offs will be tested.

#### 7. HAZARDOUS WASTE CONTINGENCY

Specific procedures for prevention, mitigation and abatement of a release of **hazardous waste** generated at your business. This section only applies to hazardous waste generators.

All hazardous wastes are contained and stored in compliance with current laws and regulations. There is no combining of incompatible wastes. All hazardous waste is recycled or removed off-site periodically as required by a certified waste hauler.

**8. UNAUTHORIZED RELEASE RESPONSE PLAN**

Specific procedures for mitigation, abatement and reporting of an unauthorized release from an **underground storage tank (UST)**. The plan must address a release from a single wall or a double wall tank system as applicable. This plan should cover the entire UST system. This section only applies to UST owner/operators.

In the event a leak is discovered from the UST system, the system will be immediately shut down and leak detection services notified to respond. Should a catastrophic release occur the immediate premises will be evacuated and emergency personnel notified.

**9. SITE SECURITY**

As applicable on an individual facility basis, you should assess the security and vulnerability of your business from intentional acts both from within your business (sabotage) and from the outside (vandalism and terrorist acts). This assessment should consider testing your security system and procedures on a regular basis.

Details of this assessment should not be included in this plan as it is a public document.

# Employee Training Plan

Businesses that handle hazardous materials are required to have a program which provides employees with initial and refresher training. The HMBEP shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

- A. Methods for safe handling of hazardous materials stored at your business, including familiarity with the characteristics and hazards of each material and measures employees can take to protect themselves from chemical hazards;
- B. Procedures for coordination with local emergency response organizations;
- C. Proper use of personal protective equipment;
- D. The prevention, abatement and mitigation procedures you have developed for your business and explained in the HMBEP, including proper use of emergency equipment and supplies;
- E. The emergency evacuation plans you have developed, the notification procedure used to alert people to evacuate, and the closest location to obtain appropriate emergency medical care;
- F. Procedures to coordinate with and assist the local emergency personnel that may respond to your business;
- G. Who and how to call for immediate assistance in the event of an accident involving hazardous materials;
- H. Procedures for ensuring that appropriate personnel receive initial and refresher training.

## **All employee training shall be documented and updated annually**

### 1. Personnel

A. Are there any specially trained hazardous materials emergency response personnel at your business?  
Yes \_\_\_\_\_ No X Number Trained \_\_\_\_\_

B. Do you have decontamination capabilities for victims of exposure to hazardous materials at your business? Yes \_\_\_\_\_ No X Type of Decon \_\_\_\_\_

C. Do you have personnel that will provide site security at your business during and after a hazardous materials incident? Yes X No \_\_\_\_\_

### 2. Equipment

A. List the type and location of equipment that can or will be used for response to hazardous materials incidents at your business.

## HAZARDOUS MATERIALS BUSINESS EMERGENCY PLAN: EMERGENCY NOTIFICATION

During an emergency involving a release or a threatened release of a hazardous material you must notify appropriate agencies. Information you should be prepared to supply includes:

1. Name and telephone number of the reporting party;
2. Name and address of business;
3. Time and type of release (e.g., damaged containers, malfunctioning equipment, etc.);
4. Name and quantity of material(s) involved;
5. Extent and number of injuries;
6. Actions taken or being taken to mitigate or reduce emergency;
7. Potential hazards to human health or the environment surrounding the business.

### AGENCY NOTIFICATION:

Fire Department	911

**HEARING NOTICE**  
 County of Riverside · Community Health Agency  
 Department of Environmental Health  
 Hazardous Materials Management Division

Date June 14, 2007 Facility # 90816  
 To Owner/Operator DBA Weekend Warrior Trailers, Inc.  
 Address 100 W. Sinclair Ave Mailing: 1320 Oklander Ave., Perris, CA 92571  
 City Perris State CA Zip Code 92570

You are in violation of: Riverside Co. Ordinance 651 and 615. Operating facility without a valid hazardous waste Generator & Haz. Mat. Handler permit; Storing hazardous materials without an approved business plan.

You are required to appear at a hearing notice on this matter. It will be held at:

Office Location 800 S. Sanderson Ave., #102  
 Date June 27, 2007 Time 11:00 am Telephone 951-766-6524

At this hearing you may present your plans and documentation for correction of the violation(s) or reasons for non compliance. You will be requested to show identification prior to the hearing. Failure to appear will be cause for further legal action.

Attn: Paul Mitchell

Dear Paul,

National R.V., Inc. has always striven for compliance in all city, county, and state, and federal environmental requirements. National RV would like to take this opportunity to respond and inform you of the correction we have made pertaining to your previous inspection on May 17, 2007 for both the Sinclair and Perris facility.

Facility ID# 89073: 100 W. Sinclair St., Perris, CA 92571  
Facility ID# 82241: 3411 N. Perris Blvd, Perris, CA 92571

**Hazardous Materials Handler Inspection Report**

**Violation: 104A (Sinclair & Perris Facility)**

Posting, NFPA 704 Signs Posted

**National RV Response to Violation 104A**

Seven existing NFPA signs with faded numbers have been replaced.  
See Picture #1, 2, 3,13

**Violation: 105A (Sinclair & Perris Facility)**

Storage, Maintained to Minimize the Possibility of Release

**National RV Response to Violation 105A**

All hazardous materials are stored in closed containers on/or inside spill containments located inside buildings with proper labels. Hazardous materials classified as flammable and combustible are kept in flammable storage cabinets as well as spill pallets. There is no combining of incompatible materials. Additional preventative measures are proper container labeling and housekeeping program.  
See Picture #4

**Violation: 105C (Perris Facility)**

Incompatible Stored Separately

**National RV Response to Violation 105C**

All hazardous materials are been inspected. Incompatible materials are segregated and stored separately.  
See Picture #4, 5

**Violation: 105D (Sinclair & Perris Facility)**

Storage, Containers Properly Labeled

**National RV Response to Violation 105D**

All hazardous materials are either stored inside their original containers or in secondary containers with secondary labels.  
See Picture #3, 4, 8, 12

## Hazardous Waste Generator Inspection Report

### Violation: 201 (Sinclair & Perris Facility)

Hazardous Waste Storage, Maintained and Operated to Minimize the Possibility of Fire, Explosion, or Release.

### National Response to Violation 201

All hazardous waste are segregated and stored in closed and labeled 55-gallon drums in accordance to waste streams. There is no combining of incompatible materials.

### Violation: 202 (Sinclair & Perris Facility)

Hazardous Waste Storage, Accumulation Time

### National RV Response to Violation 202

All hazardous waste drums are labeled with all the required information and the accumulation time.  
See Picture #9

### Violation: 206 (Sinclair & Perris Facility)

Containers, Container Marking and Labeling

### National RV Response to Violation 206

All hazardous materials are either stored inside their original containers or in secondary containers with secondary labels.

### Violation: 210 (Sinclair & Perris Facility)

Containers, Containers Closed

### National RV Response to Violation 210

All containers containing material, when not in process, are closed.  
See Picture #11

## Storm Water Compliance Survey

### Violation: 4 (Perris Facility)

Onsite Storm Drain, Protected from accidental discharge other than water.

### National RV Response to Violation 4

All materials are stored inside the spill containment area to prevent accidental discharge of materials into the storm drain in the event of a spill. In addition, absorbents and empty 55-gallon drums are located in the area to contain and mitigate any potential spill and discharge.

### Violation: 7 (Sinclair & Perris Facility)

Others, Non-storm water discharge (i.e. non-hazardous process discharge)

### National RV Response to Violation 7

National RV has a policy of applying floor sweeper for cleaning the floor and ground. No water is be used in the process.

NARRATIVE REPORT (CONTINUED)					

Old paint gun cleaner not in use

Hazardous waste label not filled out

Unlabeled container

Work station carts with labeled containers

Paint related waste consolidation area

Crushed containers

Writing on label becoming non-readable

Flammable paint related waste drum

Emergency equipment access blocked

Paint mixing and stirring device

Open container of Acetone

Flammable materials storage

Flammable waste paint related material drum

Paint stirring location

Hazardous waste collection location

Hazardous waste storage area

New product dispensing area

Hazardous waste consolidation location

Hazardous waste consolidation

Aerosol hazardous waste drum

Not actively draining container

Old hydraulic leak from trash crusher

Empty container storage area

New product storage area no signs

Service Center hazardous waste storage area

Old hazardous waste label

Hazardous waste labels not filled out correctly

Accumulation date of March 2006

Partial hazardous waste label / accumulation date Jan. 06

Hazardous waste label not filled out

Used oil drum with hazardous label not filled out

Service Center paint mixing station

Access to the fire extinguisher is blocked

Service Center flammable storage

Service Center's storage area

Service Center's storage area

Label board for small containers

Shipping foam part A & B

NFPA 704 sign numbers faded

Storm water discharge violation

Propane emergency shut off switch

## **Hazardous Waste Generation Section:**

### **201 Maintained And Operated To Minimize The Possibility Of Fire, Explosion or Release.**

**22CCR 66265.31** Facilities shall be maintained and operated to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment

**Violation:** In the hazardous waste transfer area, the pouring spout leading into the drum had containers that were draining. No one was monitoring this operation.

**Corrective Action:** When transferring hazardous waste you are to have an employee monitor the transfer operation and seal the container when the employee leaves the area.

### **202 Accumulation Time**

#### **22CCR 66262.34**

**Large Quantity Generators** are those facilities that generate 2,200 or more pounds of hazardous waste per month at the site when totaling all of the hazardous waste generated on site.

The accumulation date for the large quantity generator begins on the date the waste accumulation starts (Title 22 CCR section 66262.34(b) (2)).

The total allowable accumulation of hazardous waste on site for the large quantity generator is a maximum of 90 days (Title 22 CCR section 66262.34(a)).

**Small Quantity Generators (1)** are those facilities that generate more than 220 pounds but less than 2,200 pounds of all hazardous waste generated at the site per month, or generates an extremely or acutely hazardous waste of less than 2.2 pounds. The total amount of hazardous waste accumulated at any one time can never exceed 13,200 pounds.

The accumulation date for this small quantity generator begins on the date the waste accumulation starts (Title 22 CCR section 66262.34(b) (2)).

The total allowable accumulation for this hazardous waste on site is 180 days. Any acutely or extremely hazardous waste must be removed within 90 days (Title 22 CCR section 66262.34(d))

**Small Quantity Generators (2)** are those facilities that generate less than 220 pounds of per month for all hazardous waste generated on site; or less than 2.2 pounds of an acutely or extremely hazardous waste per month.

**The accumulation date starts for the small quantity generator (2) starts when:**

- (1) 220 pounds of hazardous waste or
- (2) 2.2 pounds of acutely or extremely hazardous waste is accumulated on site (Health and Safety Code section 25123.3(c)).

**The total allowable accumulation time for this hazardous waste is 180 days. Any acutely or extremely hazardous waste must be removed within 90 days (Title 22 CCR section 66262.34(d)).**

**There is no accumulation limit for generators of not more than 220 pounds per month that are using the satellite accumulation area and who have not yet accumulated 220 pounds of hazardous waste (or one quart of acutely or extremely hazardous waste). (Health and Safety Code section 25123.3(c)).**

**Note: The standard drum when full weights an estimated 400 to 500 pounds thus when a drum reaches the half way point it is near the 220 pounds of hazardous waste referred to in the regulations. If you want to greatly deviate from this rule of thumb, then weight the container with various amounts of hazardous waste or determine the specific gravity of the waste times the volume of hazardous waste being stored.**

**Violation: One container of hazardous waste had accumulation date of March of 2006. Other hazardous waste containers were missing the accumulation date. Still other containers were not labeled in the hazardous waste storage area behind the maintenance shop.**

**Corrective Action:** At the time the first item of waste is placed into the container the hazardous waste label is to be placed onto the container. At the time the label is placed on to the container the required information is to be filled out. Disposal of hazardous waste for National RV is to be conducted within 90 days or less. If National RV wants to increase to period of time allowed for disposal then satellite accumulation sites most be identified in accordance with Health and Safety Code and Title 22 regulations.

### **206 Container Marking and Labeling**

**22CCR 66262.34 (f)** Generators who accumulate hazardous waste on site without a permit or grant of interim status shall comply with the following requirements:

...the date upon which each period of accumulation begins shall be clearly marked and visible for inspection on each container and portable tank;...

...each container and tank used for onsite accumulation of hazardous waste shall be labeled or marked clearly with the words, Hazardous Waste. Additionally all containers and portable tanks shall be labeled with the following information:

- (A) composition and physical state of the waste;
- (B) statement or statements which call attention to the particular
- (C) name and address of the person producing the waste.

**Violation: As seen in the Service Center storage area some of the hazardous waste labels were so old that they were peeling off of the drums. The used filter drum did not have a hazardous waste label that stated the container stored used "drained" filter and the accumulation date.**

**Corrective Action:** Hazardous waste containers are to be properly labeled at the time the first item of waste is placed into the container. Check with the disposal companies used by National RV for the proper labels.

### **210 Management of Containers (Stored Closed)**

**22CCR 66265.173(a)** A container holding hazardous waste shall always be closed during transfer and storage, except when it is necessary to add or remove waste.

**Violation: In the consolidation area two crushed containers were placed to drain into the waste flammable paint. The person operating this facility was not working inside of the consolidation site. When the person leaves the consolidation facility it is to be ready for closure and all required container that are to be sealed are in fact sealed.**

**Corrective Action:** Owner/operator shall store all hazardous waste containers closed, except when adding or removing waste.

## **Business Emergency Plan Section:**

#### **104 A NFPA 704 Sign(s) Posted**

**Ordinance 651.3, Section 3(d)**, Hazard identification signs specified and in conformity with the National Fire Protection Association (NFPA) Standard 704 shall be placed in locations where hazardous materials are stored or handled in quantities requiring a permit and at all entrances to the establishment.

**Violation: Behind the paint facility were two locations that stored hazardous materials and both were not posted with NFPA 704 signs.**

Corrective Action: Owner/operator shall post NFPA 704 signs in location(s) where hazardous materials are stored and at all entrances which the emergency responder can use to enter the facility. Each NFPA 704 sign posted at a chemical storage area is to have the highest rating in each category (health, fire, stability) posted for the chemicals being stored. At the entrance(s) the highest rating for each category for the chemicals stored at the facility are to be posted.

#### **105 A Maintained to Minimize the Possibility of Release**

**Ordinance 651.3, Section 3a**, No person shall cause or allow the handling of hazardous materials in a manner which violates any provision of this Ordinance, in a manner which causes an unauthorized release of hazardous materials, or in a manner which poses a significant risk of an unauthorized release of hazardous materials.

**Violation: A one gallon container of Acetone was left with its lids off in the paint mixing area. In the waste handling area a container was being drained into the flammable waste paint but no one was monitoring the operation.**

Corrective Action: When working with hazardous materials or waste the operation being conducted is to be monitored to prevent releases. When not actively transferring materials the containers are to be sealed.

#### **105 D Containers Properly Labeled**

**Ordinance 651.3, Section 3(e)**, Containers holding hazardous materials shall be labeled as to the contents.

**Violation: As seen in the Service Center storage area some of the hazardous waste labels were so old that they were peeling off of the drums. The used filter drum did not have a hazardous waste label.**

Corrective Action: Hazardous waste containers are to be properly labeled at the time the first item of waste is placed into the container. Check with the disposal companies used by National RV for the proper labels.

#### **Reporting requirements:**

When a company has a release or threatens to have a release of a hazardous material in the State of California, a reporting requirement for that release or threaten release has been established. Health and Safety Code section 25507 states handlers, any employees, authorized representative, agents or designees of handlers shall, upon discovery, immediately report any release or threatened release of hazardous materials. To comply with the reporting requirement of a spill you are to call the Hazardous Materials Management Division and the Office of Emergency Services. For the Division you can during the normal business hours call any of the offices. After hours you can call the Riverside Office telephone number which will direct you to the answering service used by the Environmental Health Department. The Riverside office telephone number is (951) 358 - 5055. In the event this is an emergency call 911 or the Fire Department which will then page the Haz Mat team to respond and the on call Hazardous Materials Management Specialist will be responding to assist you with the release mitigation. The office of Emergency Services telephone number is (800) 852 - 7550.

#### **Notes:**

The emergency equipment is not to have access blocked. In the paint shop a trash container was setting in front of the eye wash station. In the Service Center a work cart was blocking access to a fire extinguisher.

Empty rectangular area for report content.
