

Hello Planning and City,

I live in Perris and own my business in Perris which is a landscaping company. I have a lot of properties I take care of in Perris and Menifee. It is very hard for me to find place that offer diesel fuel around my home so I can fill up my equipment and vehicles. Most place are too small for my equipment to enter or too expensive. The Ethanac Gas Center has a lot of diesel fueling and that is something we need in Perris. A lot of our locals are small business owners like me who need diesel fuel for there business. The location is right on the way to many of my jobs in Menifee, Murrieta, and Temecula and is easy to get to from freeway 215.

Please pass the travel center.

Luis Omar Martinez
