Subject: Skydive Perris Concerns
Date: Wednesday, November 1, 2023 12:29:57 PM

Hi Mr Perez,

I was given word of recent news that there may be new development on the grounds of Skydive Perris that would significantly disrupt operations here and most likely bring this historic facility to a shut down. Besides the fact that this is a training ground for military personal, skydive training, a huge place for community outreach and events, Skydive Perris is also a home too many of us and our families. I have struggled throughout my life financially as many of us here have and skydive perris has been a means of making a living and supporting ourselves. If anything were to happen to skydive perris I would be without a source of income and a means of work with my trade. If the airport were to shut down not only would all of us have to relocate to other parts of the country to find work but we also wouldn't be guaranteed work at another location. We bring travelers from all over the world here to skydive perris as it is one of the most famous and prestigious skydiving facilities in the world with decades of history. We bring a lot of revenue and visitors here to the city of perris that would otherwise never come here.

I wanted to atleast voice my concern as this building project would jeperoize all that I listed above. I'm respectfully asking the city of perris to please reconsider this building project and understand how this project would hurt all of us here.

Thank you for taking the time to hear our voices and our concerns,

Kindest regards,

Harry X Berning
