To whom it may concern,

I recently came across the news that the city of Perris is considering developing around our airport. I'm absolutely disgusted by the fact that our city would even consider such an outrageous proposal. Perris airport is a local icon and an attraction that puts us on the map. On the contrary these warehouses that around being propped up like weeds in a garden bring nothing but negative recognition. We have far more of these warehouses than we want, they bring nothing but LOW PAYING JOBS, TRAFFIC, POLLUTION and an overall a massive EYESORE. I'll speak up for our community and stand against these greedy corporations that our ruining our reputation and hurting our community.
