Subject: Community Concerns for Perris Valley Airport
Date: Tuesday, November 14, 2023 10:04:52 AM

Mr. Perez,

I am writing to express my concerns for development surrounding Perris Valley Airport which may affect future flying and skydiving operations. Skydive Perris and its associated airport was one of the main reasons I sought assignment to March Air Reserve Base. The reputation and operational excellence of Skydive Perris is world renowned, and I treasure being able to show up any day of the week to jump with skydivers from around the world. The economic benefit to the City of Perris from jump operations cannot be understated. Any action which could jeopardize, reduce, or otherwise impede the operation of the airport and jump operations would be a disservice to the City of Perris, its businesses, and citizens.
