Subject: Support for Perris Valley Airport
Date: Tuesday, November 14, 2023 2:38:05 PM

Good day Mr. Pérez,

I wanted to send a quick email to encourage Perris to protect Perris Valley Airport from planned developments. As you are likely aware, Skydive Perris brings an enormous amount of people to Perris and the surrounding area. I myself am a Canadian skydiver who visits the area a couple of times a year. Just yesterday I was skydiving with another Canadian, and Americans from the Pacific Northwest and Midwest all of whom travelled to Perris to skydive. Additionally, military contracts were keeping the dropzone busy.

Building warehouses will endanger this gem of a skydiving centre, with a knock-on effect of having less visitors spending money in Perris. The economic impact will be significant, and while I am not sure what comes of huge warehouses which will potentially render PVA unsafe for skydiving, but the impact of skydiving on Perris I am sure is quite significant.

I hope to continue visiting your city for years to come.
