---

Mr Perez,

I understand the City of Perris has allowed an opportunity for community feedback, regarding the proposed developments near the Perris Valley Airport.

I realize you have probably fielded dozens of emails from concerned citizens. Although I'm not a resident of Perris, I feel I have been a part of the community for the past couple years.

The sport of skydiving has made a huge positive impact on my life. It's truly changed it for the better.

I can only hope, there won't be anything that might jeopardize the safety of this wonderful place.

Respectfully,

Mike Champion
