---

Hello Mr. Perez, Planners, Staff,

I am the mother of the airport family, and, first of all, I want to sincerely thank you all for being kind and toletant while “listening to our plight” at the November 1 meeting.

We realize the City is in a tough position due to these developers —who have spent really big bucks on our surrounding properties.

We believe, purely for safety’s sake, that the City will be cautious when considering buildings around the airport.

We have had a huge outpouring of concern, both healthwise and trafficwise, about the trucks and traffic being brought in. I feel that it is important for the Planners to see the articles I have been sent, but don’t want the deluge to be trashed. Maybe I can slip a few in a little at a time.

Thanks for doing the best job you can,  
Diane Conatser
