Subject: November 1st Planning Commission Scoping Hearing
Date: Saturday, October 28, 2023 11:48:38 AM

Dear Mr. Perez and Commissioners,

I am writing to voice my concerns about the planned truck, trailer and storage facility being proposed adjacent to the Perris Valley Airport.

I have been traveling to Perris usually 2-3 times a year over the past 25 years and have participated in many events at Perris Airport. I have seen tremendous growth and reinvestment in the facility over the years. I am concerned that the proposed project not only could impede the business of the airport but could potentially cause physical harm to the skydivers and aircraft from the proposed structures effect on wind and turbulence.

If the airport is forced to shut itself down in the name of safety, it would be an enormous loss to the local as well as international skydiving community but also to the City of Perris due to the fact that we heartily contribute to the local economy.

I ask that you please consider these issues as you prepare your report.

Thank you,
Debbie Franzese
