Subject: Regarding skydive
Date: Wednesday, November 1, 2023 6:09:09 PM

Good evening,

I write to you today In regards to the news of a new warehouse being purposed near the skydive airport. Not only is this a great concern for my family, In regards to the skydiving airport being affected, but as a citizen who lives in the monument ranch area. This deeply concerns me. I bought my house in this area because it's a neighborhood that I could see myself raising my kids in. The north side of perris not appeasing to anyone due to all the warehouses. All I could think was all The pollution from the trucks, that my children would be inhaling while playing outside. My boys have severe asthma, so this is concerning. The roadway on goetz is already constantly having to get repaired due to cr&r. Can you imagine if we allow a warehouse? With so many houses, sports park and elementary school being built in that area. I strongly oppose allowing any type of warehouses being built on the south side of perris! I hope you take my thoughts and concerns seriously in this matter! Thank you for your time!
