Dear sirs

I'm Yasuhiro Kubo.

I'm one of Japanese skydiver. I have made thousands jumps at Perris valley airport.

This airfield is a world famous and unique place in the world. It is visited by people of all races and nationalities from all over the world.

I would like to express my opinion on the airfield.

We, the undersigned, are deeply concerned about the permanence of Perris valley airport. The airfield is an important part of the local economy and provides essential services to your lives and jobs. Therefore, we ask that you consider the impact that closing or restricting the airfield would have on the community.

The following are some of the reasons we support airfield permanence.

Maintaining employment opportunities: Perris valley airport provides many employment opportunities for the community. Not only employees, but also related industries depend on it, and its economic infrastructure extends throughout the region.

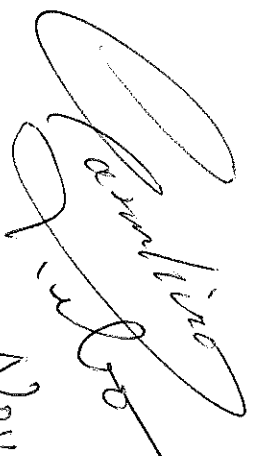

Maintaining the airfield will ensure the continuation of employment opportunities in the region. Economic Impact: The airfield is an important driver in the local economy and is vital to local businesses and tourism. The functioning of the airfield has led to sustainable growth and development of the overall regional economy.

Improved access to the region: The airfield serves as part of the transportation infrastructure in the region, providing essential access for local residents and businesses. Maintaining the airfield will improve accessibility to the region and ensure convenience for local residents. We strongly advocate for the permanence of the airfield for these reasons. The economic and social losses that would result from the closure of the airfield are incalculable. We hope that you will support the continuation of the airfield for the benefit of the entire community.

Thank you very much.

Sincerely yours

Yasuhiro Kubo 14<sup>th</sup> November 2023
