Dear Mr. Perez,

My name is Howard Ogden and I am a previous resident of Perris at 353 Bahia. I'm writing briefly to express my thoughts as a former employee and 28 year regular skydiver at Perris Valley Skydiving. Having seen the proposed plans for the commercial construction near the runway and landing area, I would ask that you not allow this type of construction so close to a landing area.

Allowing this type of development close to your only airport means the beginning of the end for this asset to the city.

Thank you,
