Subject: Perris Valley Airport: Community Concerns
Date: Thursday, November 9, 2023 9:25:34 AM

Dear Nathan Perez,

I respectfully request that the City of Perris take steps that will preserve the safety of skydiving operations at the Perris Valley Airport into the future. As you know, Skydive Perris is one of the best in the world due to its location, ownership and management commitment to progressive and safe operations, and worldwide reputation as a leader in everything skydiving.

I understand there are development pressures that may have some economic benefit to the community, however please keep in mind the economic and cultural advantages of preserving Skydive Perris operations at the Perris Valley Airport. People come from all over the world to jump there as it is such an iconic place for skydivers. I, personally, have participated in many skydiving events over the years at Skydive Perris.

The ownership and management of operations at Skydive Perris are the best there is, and I ask that you work closely with them as the issues surrounding additional land development are considered.

Thank you for your time and involvement in seeking solutions that serve the community which includes Skydive Perris.

Sincerely,

Mike Robinson
