Hello my name is Israel, I'm an a resident of Perris, CA. I have seen online that developers have plans for warehouse in the area where Skydive Perris is located. I live about 5 minutes away from Skydive Perris in the Pinacate area. I have spent just about all my life living in this area and everyday I have always seen the airplanes and people parachuting out in the sky. Not only is Skydive Perris a skydiving facility, but it is a staple of City of Perris. Seeing those planes and parachutes out in the sky gives me and my community a sense of ease. Peace of mind that only people in our community can feel, not some "developers" that have never even stepped FOOT in our area. So many memories have been created by Skydive Perris and for these developers to come in and try to take that away from us is a slap in the face. I ask that you, Mr. Nathan Perez, and the City of Perris please come to the right agreement for OUR city and OUR beloved monument, Skydive Perris. Thank you for you time and I hope this email is useful for our important cause.

Best,
Israel Salgado
