1.0 EXECUTIVE SUMMARY

A Phase 1 Environmental Site Assessment has been conducted for the Subject Property, a summary of the Findings, Opinion, Conclusions and Recommendations are provided below:

Findings:	***Comments***
Site Legal Description	The Subject Property consists of 10.20-Acres of vacant land, Goetz Road, Perris, CA 92570. The property is identified as APNs 310150012 and 310160070.
Subject Property History	From 1938 to sometime prior to 1961, a residence existed in the southwest portion of the east parcel. In 1967, an orchard is visible on the Subject Property, by 1974, the orchard has been removed and the Subject Property is vacant land. The Subject Property remains vacant land from 1978 to 2016.
Site Observations	The western portion of the Subject Property consists of a storage yard for equipment and material by Alabbasi Construction & Engineering. The eastern portion of the property has been recently graded.
EDR Findings for Subject Property	The Subject Property was not listed in Environmental Records Sources searched.
EDR Findings for Adjacent Properties	The Adjacent Property to the North and property located kitty corner to southwest were listed and are discussed in Section 5.3
EDR Findings for Surrounding Properties	Surrounding Sites identified as a potential concern are discussed in Section 5.4.
Local Records	No local records were found.

Opinions:	***Identified?***		***Comments***
	Yes	***No***	
Recognized Environmental Condition (REC)	**X**		During a visual site inspection on Thursday, December 15, 2022, soil mounds were observed on the eastern portion of the Subject Property. A second inspection occurred on January 3, 2023 to include the eastern parcel. During the inspection the previous observed soil mounds were no longer present, the eastern portion of the property had been recently graded and it is suspected that the observed mounds which were said to have originated from a roadwork project along Goetz Road were mixed with surface soils during grading. Based on the length of the roadwork project (greater than one mile), the area of potential source is located beyond the standard search radius of the database listings and is beyond the scope of this Phase I ESA Report and is considered a significant data gap and a REC.
Historical Recognized Environmental Condition (HREC)		**X**	No HRECs were identified.
Controlled Recognized Environmental Condition (CREC)		**X**	No CRECs were identified.

Significant Data Gaps	**X**		See REC above.
Vapor Intrusion Risk		**X**	A vapor intrusion risk was not identified for the Subject Property.
De Minimis Condition	**X**		Based on the limited time the Subject Property was used as an orchard, the historical use as an orchard is considered a de minimis condition.
Environmental Business Risk		**X**	No Environmental Business Risks were identified.

Conclusion

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the Subject Property which consists of one parcel, located at 10.20-Acres of vacant land, Goetz Road, Perris, CA 92570. The Subject Property is identified as APN(s) 310150012 and 310160070. Any exceptions to, or deletions from, this practice are described in the Limitations Section of this report. This assessment has revealed the following recognized environmental conditions, historical recognized environmental conditions, controlled recognized environmental conditions, and/or significant data gaps in connection with the Subject Property:

- Soil mounds located on the east side of the Subject Property originated from a roadway project; these mounds were no longer present at the time of the second inspection on January 3, 2023, and it is suspected that during recent grading activities that these mounds were mix with the surface soils.

Recommendations

Additional Environmental Investigations are recommended at this time. Soil sampling of surface and shallow subsurface soils in the eastern portion of the Subject Property is recommended.

2.0 INTRODUCTION

2.1 Location and Legal Description

Subject Property Description	
Subject Property Address:	10.20-Acres of vacant land, Goetz Road, Perris, CA 92570
Assessor Parcel Number(s):	310150012 and 310160070

A site vicinity map and a generalized location map are located in Appendix 9.2.

2.2 Site and Vicinity General Characteristics

The Subject Property is located in the City of Perris in Riverside County, California, on the southeast side of the intersection of Case Road and Goetz Road. East Ellis Avenue runs along the south side of the Subject Property. The surrounding properties consists of commercial, light manufacturing and residential properties.

2.3 Description of Improvements on Property

Property Type	Commercial vacant land.
Land Area (acres)/Source:	10.20-Acres/Riverside County Assessor.

The Subject Property consists of approximately 10.20-acres of undeveloped vacant land.

2.4 Current Uses of Adjoining Properties

Direction	Address	Type of Use
North	1122 South G Street	Manufacturing (light).
East	Not reported	Vacant land.
South	Not reported	Vacant land.
West	1355 South Perris Blvd	Apartment buildings.

2.5 Purpose

The purpose of this Phase 1 Environmental Site Assessment is to identify to the extent feasible recognized environmental conditions (REC) in connection with the property. Following the processes prescribed by the AAI rule and in ASTM Standard E1527-21, Standard Practice for Environmental Site Assessments: Phase 1 Environmental Site Assessment process.

- As defined by ASTM E1527-21, §1.1.1, the term "recognized environmental conditions" is defined as follows: *"(1) the presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the Subject Property under conditions that pose a material threat of a future release to the environment. A de minimis condition is not a recognized environmental condition.*

- As defined by ASTM E1527-21, §3.2.17, the term "controlled recognized environmental condition" is defined as follows: *"Recognized environmental condition affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations)."*

- As defined by ASTM E1527-21, §3.2.39, the term "*historical recognized environmental condition"* is defined as follows: *"a previous release of hazardous substances or petroleum products affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the Subject Property to any controls (for example, activity and use limitations or other property use limitations).*

2.6 Detailed Scope-of-Work

The scope of work performed for this Phase 1 Environmental report includes:

- Collecting and reviewing available environmental related information concerning the property and other data pertinent to the specific site per the ASTM standard E1527-21;

- Conducting a site visit to observe current site uses, observe adjacent land use, and gather data on possible spills, or misuse of chemicals that could be considered a REC;

- Contacting appropriate regulatory personnel and reviewing regulatory files regarding the property in question.

No additional non-scope considerations per Section 13 of ASTM E1527-21 were included in this Phase 1 Report including sections 13.1.5.1 to 13.1.5.16.

2.7 Significant Assumptions

No significant assumptions were made in this assessment.

2.8 Limitations and Exceptions

Limitations

This report is applicable only for the project and site studied. Report findings and statements of professional opinion do not constitute a guarantee or warranty, expressed or implied. This report contains information and data provided by others and Priority One Environmental, Inc. in no way warrants the accuracy or completeness of the information provided by those sources. Our services are performed in a manner consistent with the level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. This report is prepared using the ASTM Standard E1527-21 and includes several inherent limitations, including but not limited to: Section 4.5.1 - Uncertainty Not Eliminated, Section 4.5.2 - Not Exhaustive, Section 7.4 - No Sampling, and Section 7.5.2.1 - Reliance.

Exceptions

No exceptions to or deviations from the ASTM standard E1527-21 were made during the course of our work except for the following:

- *No interviews were conducted with local agencies as part of this assessment. Relevant local agencies for the area have policies of referring requests for interviews to their file review departments.*

These limitations are not anticipated to represent a significant data gap for the investigation.

2.9 Special Terms and Conditions

We have been authorized by Alabbasi Construction & Engineering to perform a Phase 1 environmental site assessment of the Subject Property. It is our understanding that Alabbasi Construction & Engineering will use the information contained in the report for due diligence and innocent landowner's protection under CERCLA. Without prior written consent of the client, Priority One Environmental, Inc. will keep confidential and not disclose to any person or entity any data or information provided by the client or generated in conjunction with the performance of this study, except when required by law. Provisions of confidentiality shall not apply to data or information obtained from the public domain or acquired from third parties not under obligation to the client to maintain confidentiality.

2.10 User Reliance

This report was prepared for the exclusive use of Alabbasi Construction & Engineering. No other person or entity is entitled to rely upon this report without the specific written authorization of Priority One Environmental, Inc. Such reliance is a subject to the same limitations, terms, and conditions as the original contract with the client. Priority One Environmental, Inc. specifically disclaims any responsibility for any unauthorized use of this report. Based on the ASTM standard this Phase 1 report is reliable for 180 days from the date the work was conducted.

3.0 USER PROVIDED INFORMATION

3.1 Title Records

A Preliminary Title Report was not provided for Review.

3.2 Environmental Liens or Activity and Use Limitations

No Additional information was provided identifying actual knowledge of environmental liens or activity and use limitations recorded against the Subject Property. No environmental liens placed by the federal environmental agency under CERCLA regulations for the Subject Property were found during a record search on available government records. The California State Department of Toxic Substances website EnviroStor was searched, and no environmental liens placed by the State environmental agency for the Subject Property was found.

3.3 Specialized Knowledge

No information was provided identifying specialized knowledge or experience that is material to recognized environmental conditions in connection with the Subject Property.

3.4 Commonly Known or Reasonably Ascertainable Information

No information was provided identifying knowledge of commonly known or reasonably ascertainable information related to the Subject Property.

3.5 Valuation Reduction for Environmental Issues

No information was provided identifying knowledge of valuation reduction of the Subject Property.

3.6 Owner, Property Manager, and Occupant Information

Information provided by the owner of the Subject Property is discussed in Section 6 of this report.

3.7 Reason for Performing Phase 1

The Phase 1 has been requested by the client for the use in the development of the Subject Property.

3.8 Other

No other information was provided for review related to the Subject Property.

4.0 SUBJECT PROPERTY RECONNAISSANCE

A visual reconnaissance of the Subject Property was conducted on Thursday, December 15, 2022, by Mr. Paul Robinson. A second visual reconnaissance of the Subject Property was conducted on Tuesday, January 3, 2023. Photographs of the Subject Property are attached to this report in Appendix 9.1

4.1 Methodology and Limiting Conditions

The periphery of the Subject Property was inspected. A detailed inspection was conducted of all major site features visible from the public portions of the property.

4.2 Subject Property Reconnaissance

Observations made during the site visit are summarized in the following table:

Site Visit Observations	
Current Use(s)	Vacant land.
Past Use(s)	None observed.
Current Use of Adjoining Properties	North: Vacant land and auto repair facility. South: Vacant land. East: Vacant land. West: Residential apartment complex.
Evidence of Past Use of Adjoining Properties	None observed.
Topography	The Subject Property is relatively level, overall topography trends downward to the southeast.
Number of Structures (include approximate size and # of stories).	No structures on site.
Roads/Driveways/Parking	N/A.
Potable Water Supply	N/A.
Solid Waste Disposal	N/A.
Sewer Discharge and Disposal	N/A.
Surface Water Drainage	Natural drainage to streets.
Source of Heating and Cooling	N/A.

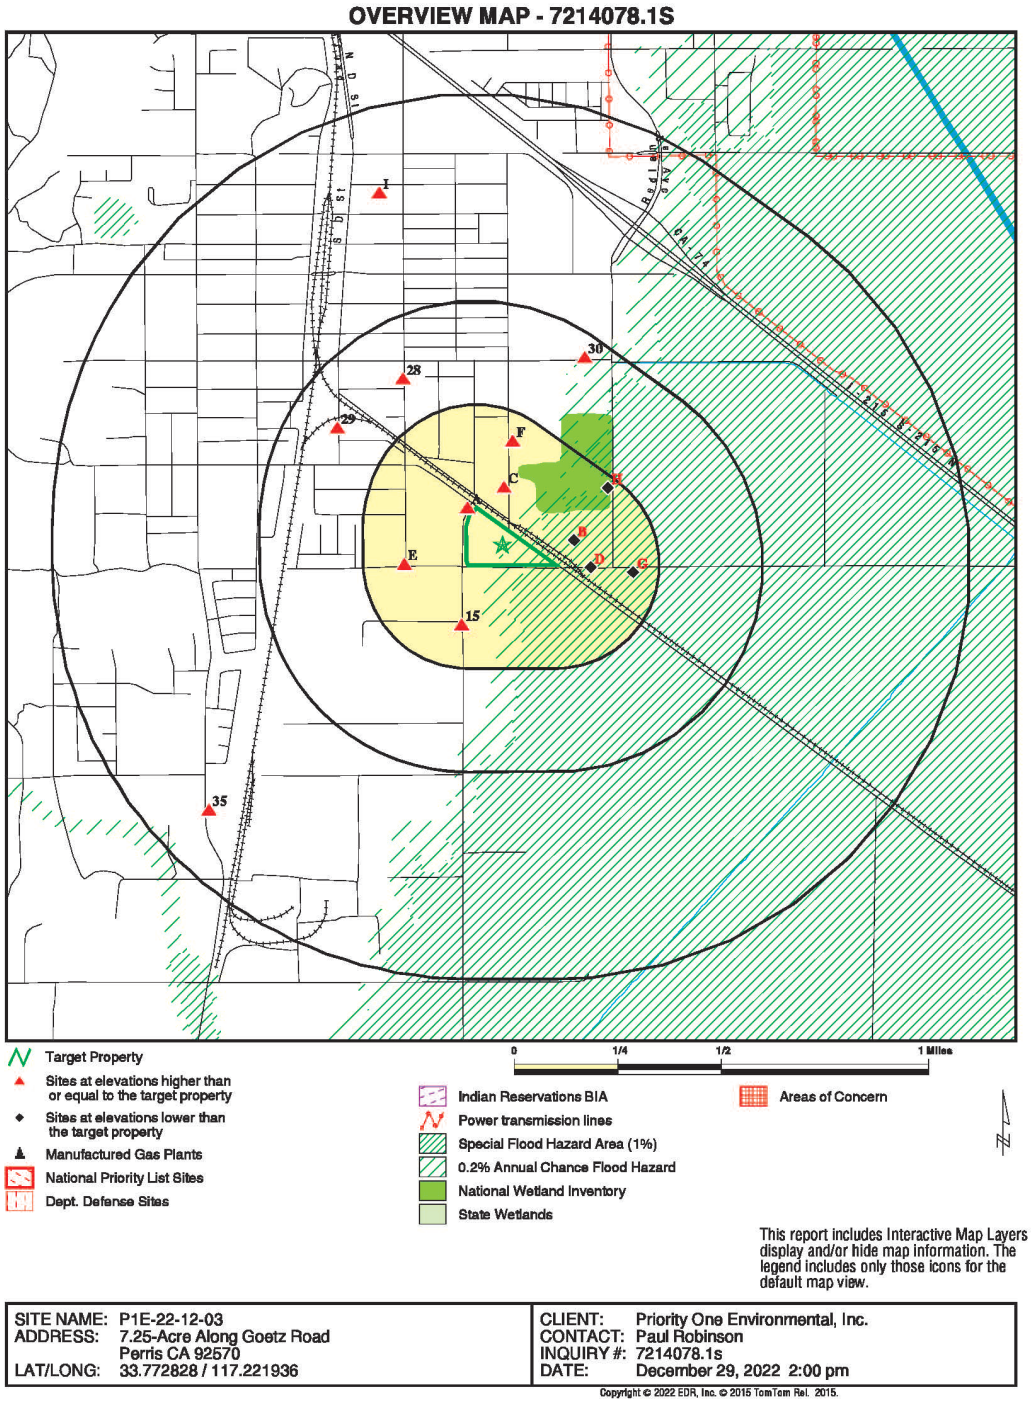

Observation Check List			
	Observed?		
Type	Yes	No	Notes
Hazardous Materials and Petroleum Products		X	
Storage Tanks		X	
Strong, Pungent or Noxious Odors		X	
Standing Surface Water and Pools, or Sumps containing liquids likely to be hazardous substances or petroleum products.		X	
Drums, Totes, and Intermediate Bulk Containers		X	
Hazardous Substance and petroleum Product containers not in connection with identified uses		X	
Unidentified Substance Containers.	X		Numerous drums are located on the west and east sides of the storage area. No labels were observed on the drums.
Polychlorinated Biphenyls (PCBs)		X	
Pole- or Pad mounted Transformers		X	
Stains or Corrosion on Floors, Walls, or Ceilings (not from water)		X	
Area Drains, Floor drains		X	
Sumps, Drywells, Catch basins, Clarifiers		X	
Pits, Ponds, Lagoons		X	
Stained Soil or Pavement		X	
Stressed Vegetation		X	
Water/Wastewater or other liquid discharged from or to the Subject Property.		X	
Wells (irrigation wells, injection wells, monitoring wells, abandoned wells, or other wells).		X	
Septic System or Cesspools.		X	
Soil Mounds	X		Soil, sand, road base, and asphalt mounds were observed along the south and east portions of the Subject Property and appear to be in connection

			with the use of the property as equipment and material storage. Between The December 15 and January 3rd inspections. The site was graded, observed mounds are suspected of being graded into the surface soils of the Subject Property with mounds of soil and debris along the northeast and south perimeters of the Subject Property.

5.0 RECORDS REVIEW

5.1 EDR Map Findings

The Subject Property is consisting of 10.20-Acres of vacant land, Goetz Road, Perris, CA 92570. The property is identified as APN(s) 310150012 and 310160070. The Subject Property was not listed in the Environmental Records searched.

Sites may be listed in more than one database

Snipped from EDR Radius Report.

For the full name, description, and the date each of the databases were last updated, please refer to the Government Record section of the EDR® Report.

5.2 Subject Property

EDR reports the Subject Property was not listed in any database searched.

5.3 Adjacent Properties

EDR reports the property to the north and the property that kitty corners to the Subject Property to the southwest were listed in the databases searched. These sites are discussed below:

Adjacent Property to the North			
Site Name(s)	Address	Distance	Databases
B & J Auto Center, BJ Auto Repair	1122 South G Street	424' N	CER HAZ WASTE, RCRA NonGen/NLR
5 Violations are listed. Four were listed for June 6, 2019. All four have been returned to compliance.			

Property kitty corner to the Southwest			
Site Name(s)	Address	Distance	Databases
California Renewable Power Anaerobic Digestion Fac, **Perris Transfer Station and Material Recovery,** **The Home Depot,** **The TJX Companies, Inc.,** **C R & R Inc.,**	1706 Goetz Road	643' SW	FINDS, FUELS PROGRAM, HWTS, SWF/LF, HAULERS, HAZNET, NPDES, CIWQS, RCRA NonGen/NLR, CERS HAZ WASTE, CERS TANKS, CERS, Los Angeles Co LF Methane, UST.
CR&R is a waste collection and recycling facility. FUELS PROGRAM: Facility ID 71270, Facility Type: Gas/Ethanol, Facility Activity: Renewable Fuel Producer. CERS lists the site under the Hazardous Waste Generator, Chemical Storage Facilities and Underground Storage Tank Programs. CERS reports 27 violations, all have achieved compliance. 1 formal enforcement was listed for the Underground Storage Tank program. UST lists 2 underground storage tanks installed in 1996. Tank #1 is a 600-gallon double walled fiberglass tank containing other petroleum. Tank #2 is a 20,000-gallon double walled fiberglass tank containing diesel fuel.			

5.4 Surrounding Properties

EDR Radius Report was reviewed for sites of potential concern to the Subject Property. Sites identified as a potential concern are discussed below:

Site Name(s)	Address	Distance	Databases
City of Perris Corporate Yard	1015 G Street	925' N	SWEEPS UST, CA FID UST, LUST, CHMIRS, HIST CORTESE, CORTESE, CERS, CERS HAZ WATE.
The status of the LUST case is completed – case closed as of 2011, The potential media affected was Aquifer used for drinking water supply. The Potential contaminant of concern is Gasoline. Site Summary: Historic soil impacts mitigated by VES. CSB results suggest an effective remedy. Only low/ND GW impacts.			

The remaining cases listed in the EDR Database Report were for regulatory database listings, permitted facilities listings, closed/remediated cases, and historical database listings; including sites which, based on indicated groundwater directional flow and their distances, are not anticipated to impact the Subject Property.

5.5 Orphan Properties

Five (5) orphan sites were reviewed. Of the five sites listed, all five were listed beyond the search radius of the database listings.

5.6 Physical Setting Sources

According to the most recent USGS Topographic map covering to Subject Property and vicinity, the Subject Property is relatively level and lies at approximately 1,425 feet above sea-level. The regional topography slopes to the southeast.

According to EDR GEOCHECK the site is mapped as a Loam soils with a Hydrologic Group Classification of Class B. Class B is defined as soils with Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures. The soil has a moderate corrosion potential versus uncoated steel.

GEOCHECK: Wells located within one mile of the Subject Property, list groundwater at a depth of 58-77 feet below ground surface.

5.7 Sanborn Insurance Maps

An attempt was made by EDR to obtain Sanborn Insurance Company maps for the period covering the years 1860 through the present in order to determine what types of activities were conducted on the Subject Property and on adjoining properties. No Sanborn maps were found.

5.8 Historical Aerial Photographs

Aerial photographs of the Subject Property provided by EDR were reviewed as part of this investigation.

Aerial Photograph Dates:	1938, 1949, 1953, 1961, 1967, 1974, 1978, 1985, 1989, 1997, 2002, 2006, 2009, 2012, 2016

Subject Property	**Description**
	In 1938, a residential structure is located in the southwest corner of the eastern parcel. By 1961, the residence was removed. The western parcel was vacant land from 1938 to 1961. In 1967, orchards existed on the Subject Property. By 1974, the orchards have been removed and the Subject Property is vacant land. The Subject Property remains vacant land from 1978 to 2016.

Property to North	**Description**
	In 1938, the property to the north of Case Road is vacant land. By 1949, a small structure existed to the west of G Street. The structure existed from 1953 to 1961. By 1967, the structure has been removed, a new structure is located north of the former structure. By 1974, land north of Case Road is vacant land. The properties north of Case Road remain vacant land from 1978 to 2002. By 2006, the auto repair building to the north had been developed. The properties to the north appear similar from 2009 to 2016.

Property to East-Northeast	**Description**
	From 1938 to 1989 the property to the northeast of Chase Road is vacant land. By 1997, a industrial building was developed to the east-northeast. The industrial property to the east-northeast appears similar from 2002 to 2016. From 1997 to 2016, the property to the northeast is vacant land.

Property to South	**Description**
	In 1938, two small structures existed on the property to the south. By 1949, the property to the south is vacant land. The property is vacant land in 1953 and 1961. In 1967, the south portion of the property to the south is orchards. By 1974, the orchards have been removed. In 1978, a dirt air strip existed to the south. The strip existed from 1985 to 1997. In 2002, the air strip has been paved with asphalt. The air strip existed to the south from 2002 to 2016.

Property to West	**Description**
	The property to the west is vacant land from 1938 to 1961. In 1967, orchards existed on the Subject Property. By 1974, the orchards were removed. From 1978 to 1985 the property is vacant land. By 1989 the apartment buildings to the west were developed. From 1997 to 2016, apartment buildings existed.

These photos are included in the Appendix.

5.9 Historical Topographic Maps

Topographic maps of the Subject Property provided by EDR were reviewed as part of this investigation.

YEAR(S)	DESCRIPTION.
1901	In 1901, a railroad track is mapped in the area of Case Road.
1942, 1943	The railroad tracks are mapped along the north side of Case Road. A structure is mapped in the southwest corner of the east parcel. The topography trends to the southeast and elevation is approximately 1,440'.
1953	A sewage disposal facility is located to the northeast. The topography trends to the southeast, elevation is mapped as 1,420' along the southeast portion of the property.
1967, 1973, 1979	The topography and elevations appear similar to previous years.
2012, 2015, 2018	Current Topographic Map.

These maps are included in the Appendix.

5.10 City Directories

A search of local historical city directories was conducted by EDR for the Subject Property. The review included directories in five-year intervals from 1920 to 2014 (as available). The Subject Property has no address; therefore, was not listed in the City Directories searched by EDR. No additional records were identified for the Subject Property based on the address provided. The surrounding properties are listed in detail in the attached Directory Search.

5.11 Historical Review Summary

Based on a review of the EDR provided Sanborn Fire Insurance Maps, Aerial Photographs, Topographic Maps, and City Directories. From 1938 to sometime prior to 1961 a single-family residence existed in the southwest corner of the eastern parcel. The western parcel was vacant land prior to 1967. In 1967, an orchard is visible on the Subject Property, by 1974, the orchard has been removed and the property is vacant land. The property remains vacant land from 1978 to 2016.

6.0 INTERVIEWS

An attempt has been made to obtain historical as well as current information relative to the Subject Property from several individuals and local agencies. The objective of the interview process is to obtain any information indicating recognized environmental conditions in connection with the Subject Property.

6.1 Interview with Owner or Site Manager

An Environmental Questionnaire and Disclosure Statement were sent to Corinne Mostad of Alabbasi Construction & Engineering on Thursday, December 8, 2022. The questionnaire was returned on Friday, December 9, 2022.

Site name: Mazooneh, LP (Case & Goetz), the Phase I ESA is part of CEQA/Entitlement Processing. The proposed use is a Gas Station, Carwash, Restaurant and Self-storage facility. The property was purchased by Mazooneh, LP in 2019.

According to emails with Corinne Mostad, the soil mounds located on the eastern portion of the Subject Property originate from the Geotz Road street improvement project located immediately adjacent to the Subject Property to the west. The project was done by Alabbasi Construction & Engineering and completed in 2021. A site map of the roadway project was provided for review.

6.2 Interview with Local Government Officials

County Assessor Office
According to the Riverside County Assessor, the Subject Property consists of one parcel of land totaling approximately 7.32-acre identified as Assessor's Parcel Number (APN) 310150012. The property type is listed as vacant commercial land.

Riverside County Department of Environmental Health
The Riverside County Department of Environmental Health was not contacted as part of the records review of the Subject Property. Their offices do not accept requests for properties with only a parcel number.

City of Perris – Clerk Offices
The City of Perris Clerks offices were contacted as part of the records review of the Subject Property; however, the offices have not responded as of the date of this report.

South Coast Air Quality Management District
The South Coast Air Quality Management District FINDS database was reviewed for the Subject Property (https://www.aqmd.gov/nav/FIND). The Subject Property was not found.

GEOTRACKER/ENVIROSTOR Database Review
The GEOTRACKER database (https://geotracker.waterboards.ca.gov/) and the ENVIROSTOR database (https://www.envirostor.dtsc.ca.gov/public/) were reviewed for any additional information available in regards to the Subject Property. No additional information was located for the Subject Property. If additional information was found for the adjacent properties or surrounding properties, these cases are discussed in Section 5.3 and/or 5.4.

CalEPA Regulated Site Portal (CERS)

The CalEPA Regulated Site Portal (https://siteportal.calepa.ca.gov/nsite/map/help) was reviewed for the Subject Property and adjacent properties. If the Subject Property or adjacent properties were listed, these listings are discussed in Sections 5.2 and 5.3.

Interview with Others

No additional interviews were conducted in this assessment.

7.0 NON-SCOPE SERVICES

No additional services as listed in the ASTM Standard E1527-21 have been requested in writing and placed under contract in regard to this assessment. Including, but not limited to, asbestos testing of material at the site and drug lab uses of the site.

8.0 EVALUATIONS

8.1 Findings

1) **Site Legal Description:** The Subject Property consists of 10.20-Acres of vacant land, Goetz Road, Perris, CA 92570. The property is identified as APN(s) 310150012 and 310160070.

2) **Site History:** From 1938 to sometime prior to 1961, a residence existed in the southwest portion of the east parcel. In 1967, an orchard is visible on the Subject Property, by 1974, the orchard has been removed and the Subject Property is vacant land. The Subject Property remains vacant land from 1978 to 2016.

3) **Site Observation:** The western portion of the Subject Property consists of a storage yard for equipment and material by Alabbasi Construction & Engineering. The eastern portion of the property has been recently graded.

4) **EDR Findings for Subject Property:** The Subject Property was not listed in Environmental Records Sources searched.

5) **EDR Radius Report Findings:** The Adjacent Property to the north and the property kitty corner to the southwest were listed and are discussed in Section 5.3. Surrounding sites identified as a potential concern are discussed in Section 5.4.

6) **Local Records Review:** No local records were found.

8.2 Opinions

1) **Recognized Environmental Condition (REC)** is (1) The presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the Subject Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the Subject Property under conditions that pose a material threat of a future release to the environment. A de minimis condition is not a recognized environmental condition.

   After review of the available records and data collected during this Phase I ESA in the timeframe requested, the following RECs were identified and, based on the ASTM International E1527-21 Phase I Standard, require further investigation in order to obtain Landowner Liability Protections (LLPs):

   > Landowner liability protections under CERCLA include the bona fide prospective purchaser liability protection, contiguous property owner liability protection, and innocent landowner defense from CERCLA liability.

- During a visual site inspection on Thursday, December 15, 2022, soil mounds were observed on the eastern portion of the Subject Property. A second inspection occurred on January 3, 2023, to include the eastern parcel. During the inspection the previous observed soil mounds were no longer present, the eastern portion of the property had been recently graded and it is suspected that the observed mounds which were said to have originated from a roadwork project along Goetz Road were mixed with surface soils during grading. Based on the length of the roadwork project (greater than one mile), the area of potential source is located

beyond the standard search radius of the database listings and is beyond the scope of this Phase I ESA Report and is considered a significant data gap and a REC.

2) **Historical Recognized Environmental Condition (HREC)** is a past release of any hazardous substances or petroleum products that has occurred in connection with the Property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the Property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

   Based on the Findings of this Phase I ESA, no HRECs were identified.

3) **Controlled Recognized Environmental Condition (CREC):** A controlled recognized environmental condition is a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action (NFA) letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place, subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

   Based on the Findings of this Phase I ESA, no CRECs were identified.

4) **Significant Data Gaps:** Data Gaps are a lack of—or inability to—obtain information required by this practice, despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to, site reconnaissance. Data gaps are only significant if other information and/or professional experience raises reasonable concerns involving the data gaps. Significant data gaps may not include the exceptions identified in Section 2.8 of this report (Limitations and Exceptions).

   After review of the available records and data collected during this Phase I ESA in the timeframe requested, the following significant data gaps were identified and could limit the Environmental Professional's ability to identify all RECs, HRECs, CRECs, or other possible issues with the Property:

   - It is suspected that between the two inspections, that the soil mounds were graded into the surface soils of the Subject Property. Based on the size of the roadwork project and number of facilities located beyond the search radius of this site and the southern end of the roadway project. This creates a significant data gap for the Subject Property.

5) **Vapor Intrusion Risk:** A vapor intrusion risk was not identified for the Subject Property.

6) **De Minimis Condition:** Based on the limited time the Subject Property was used as an orchard, the historical use as an orchard is considered a de minimis condition.

7) **Environmental Business Risks:** An Environmental Business Risk (EBR) is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate and is not an issue required to be investigated based on the ASTM International E1527-21 Standard.

   Based on the Findings of this Phase I ESA, no EBRs were identified.

8.3 Conclusions

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the Subject Property which consists of one parcel, located at 10.20-Acres of vacant land, Goetz Road, Perris, CA 92570. The Subject Property is identified as APN(s) 310150012 and 310160070. Any exceptions to, or deletions from, this practice are described in the Limitations Section of this report. This assessment has revealed the following recognized environmental conditions, historical recognized environmental conditions, controlled recognized environmental conditions, and/or significant data gaps in connection with the Subject Property:

- Soil mounds located on the east side of the Subject Property originated from a roadway project; these mounds were no longer present at the time of the second inspection on January 3, 2023, and it is suspected that during recent grading activities that these mounds were mix with the surface soils.

8.4 Recommendations

Additional Environmental Investigations are recommended at this time. Soil sampling of surface and shallow subsurface soils in the eastern portion of the Subject Property is recommended.

8.5 Professional Signature

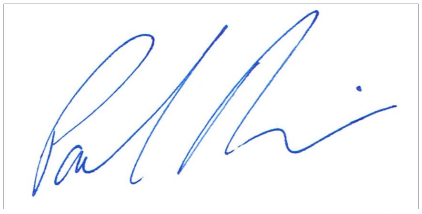

According to Code of Federal Regulations C.F.R. - Title 40 §312.10, Environmental Professional is defined as:

> *"(1) a person who possess sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases (see §312.1(c)) on, at, in, or to a property, sufficient to meet the objectives and performance factors in §312.20(e) and (f).*
>
> *(2) Such a person must:*
>
> *(i) hold a current professional engineer's or Professional Geologist's license or registration from a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) and have the equivalent of three (3) years of full-time relevant experience; or*
>
> *(ii) Be licensed or certified by the federal government, a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) to perform environmental inquiries as defined in §312.21 and have the equivalent of three (3) years of full-time relevant experience; or*
>
> *(iii) Have a Baccalaureate or higher degree from an accredited institution of higher education in a discipline of engineering or science and the equivalent of five (5) years of full-time relevant experience; or*
>
> *(iv) Have the equivalent of ten (10) years of full-time relevant experience".*

We declare to the best of our professional knowledge and belief, we have met the definition of Environmental Professional as defined in §312.10 of 40 C.F.R. 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 C.F.R. 312.

It has been a pleasure to be of service. If any questions arise, please contact our office.

Sincerely,

Paul J. Robinson
Environmental Professional
Priority One Environmental, Inc.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 11/21/2022 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
WARRIOR SOUTH LLC EPA ID:: CAR000148452	804 S REDLANDS AVE	ENE 1/8 - 1/4 (0.224 mi.)	H26	188

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/25/2022 has revealed that there are 6 ENVIROSTOR sites within approximately 1 mile of the target property.

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there are 2 SWF/LF sites within approximately 0.5 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there is 1 SWEEPS UST site within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 11/21/2022 has revealed that there are 9 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 08/05/2019. OBSERVATION: An overfill equipment inspection was not completed by the October 13, 2018 deadline. CORRECTIVE ACTION: Owner/operator shall immediately schedule and complete an overfill equipment inspection providing the required 48 hour notification prior to conducting the inspection. Inspection results and all supporting documentation (inspection procedures used, tank charts, printouts, etc.) must be submitted to this Department within 30 days upon completion of the inspection.

Eval Notes: Numerous items are marked "N/A" due to the inability to test sensors at time of inspection. Owner/operator stated the Gilbarco monitoring panel shutdown on Monday, 2/17/20 and information became unrecoverable. The owner/operator purchased a new VeederRoot monitoring panel and had it available at time of inspection. After consulting Supervising EHS Manny Vargas, the owner/operator was given permission to make an emergency repair and replace the monitoring panel. Owner stated repair will take 2 days. Owner/operator shall submit plans to obtain a permit to replace the monitoring panel ASAP. Sensors, line leak detector and monitoring panel will be testing/inspected after repair is made as a continued routine inspection. Note: Upload the updated CFR form to CERS.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and

PERRIS MATERIAL RECOVERY FAC (Continued) **S105093394**

disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violations:
Site ID: 96849
Site Name: B & J Auto Center
Violation Date: 06-07-2019
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 06/07/2019. OBSERVATION: Observed 55 gallon drums containing used filters without a lock ring properly in place. CORRECTIVE ACTION: Owner/operator shall maintain all hazardous waste containers closed with locking ring or other seal in place when not adding/removing liquid/volatile hazardous waste. ** Corrected on

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 07/30/2019. OBSERVATION: Observed one small metal drum containing absorbent on site without an accumulation start date. CORRECTIVE ACTION: Owner/operator shall ensure all hazardous wastes are transported off site within 180 days of the accumulation start date. Owner/operator shall have small absorbent drum containing hazardous waste properly hauled off site by a registered hazardous waste transporter.

Citation:	40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31
Violation Description:	Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.
Violation Notes:	Returned to compliance on 09/04/2019. OBSERVATION: Observed staining on the concrete near the waste oil tank, liquid on top of new oil tank and inside containment tray in waste area. CORRECTIVE ACTION: Owner/operator shall clean stains, maintain secondary containment dry and clean, and drums shall be dry, closed and clean and manage according to Title 22 hazardous waste regulations. Submit a statement and supporting documentation (photos) explaining how this waste was managed to this department.

Citation: 23 CCR 16 2712(b)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(2)
Violation Description: Failure to maintain monitoring records for release detection and/or maintain records of appropriate follow-up actions.
Violation Notes: Returned to compliance on 04/12/2021. OBSERVATION: Owner/operator shall ensure complete records of appropriate follow-up actions are maintained. Observed the following work orders/alarms to have incomplete responses noted. Work orders were missing the amounts of water removed to clear alarms and/or where possibly contaminated water was placed following its removal. Work orders/alarms in question: L5 9/10 on 11/23/20, L21 Diesel Fill on 1/25/21, 1/23/21, 10/27/20, 5/10/20, 4/7/20, 4/9/20, etc. CORRECTIVE ACTION: Owner/operator shall ensure monitoring and maintenance records are completed and maintained on site readily available for review. Provide copy of missing item(s) to the CUPA. OBSERVATION: Owner/operator failed to maintain logs detailing quantity of monitoring liquid used to fill reservoirs and in which reservoir (e.g., UDC, sump) liquid was required. Observe brine alarm on 9/11/20 to have a work order that did not state how much brine had been added to the brine alarm L-10. Spoke to [Truncated]

Violation Date:	02-16-2021
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 04/12/2021. OBSERVATION: Observed incomplete label at solid waste hazardous waste container. See photo report. And no properly labeled drum on site for fuel contaminated liquids. CORRECTIVE ACTION: Owner/operator shall label hazardous waste containers with all the required information. Label shall include at least: the words ""hazardous waste"", generator name and address, accumulation start date, composition and physical state of waste, and hazardous property statement. Submit photos to this department, if applicable.

Citation:	HSC 6.7 25290.1(c)(3),25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3),25290.2(c)(3)
Violation Description:	Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003.
Violation Notes:	Returned to compliance on 04/12/2021. OBSERVATION: Observed a small amount of water in the 87 fill. Technician to remove at time of inspection. Observed a history of L21-Diesel fill alarms since the last monitoring certification (4/7/20, 4/9/20, 5/10/20, 10/13/20, 10/27/20, 12/28/20, 1/23/20, 1/23/21, 1/25/21, 1/29/21). All alarms were attributed to water and/or rain water but no repairs were observed or research noted to prevent future intrusion. CORRECTIVE ACTION: Owner/operator shall investigate the cause of the water intrusion into the 91 diesel fill sump and make the necessary repairs to eliminate the intrusion of water into the containment sump. UST systems built after 7/1/03 shall prevent water intrusion into the secondary containment system. A consultation with the Hazmat Branch area plan checker may be necessary prior to repairs or installation of equipment as plans may be required.

Violation Date:	02-14-2018
Citation:	23 CCR 16 2636(f)(1) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(1)
Violation Description:	Failure of the leak detection equipment to have an audible and visual alarm as required.
Violation Notes:	Returned to compliance on 03/07/2018.
Violation Division:	Riverside County Department of Env Health
Violation Program:	UST
Violation Source:	CERS,
Site ID:	30894
Site Name:	Food 4 Less Fuel Center #315
Violation Date:	02-16-2021
Citation:	23 CCR 16 2636(f)(1) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(1)
Violation Description:	Failure of the double-walled pressurized piping to be continuously monitored with a system that activates an audible and visual alarm or stops flow at the dispenser when a leak is detected.
Violation Notes:	Returned to compliance on 02/16/2021. OBSERVATION: Observed brine sensor at UDC 9/10 to fail to stop flow of product at the dispenser when tested. CORRECTIVE ACTION: Owner/operator shall replace the inoperable sensor in 9/10 and certify sensor functionality. Technician replaced sensor at time of inspection and violation was corrected on site.

FOOD 4 LESS FUEL CENTER #315 (Continued) **S123508324**

	Chapter 16, Section(s) 2636(f)(1)
Violation Description:	Failure of the leak detection equipment to have an audible and visual alarm as required.
Violation Notes:	Returned to compliance on 02/16/2021. OBSERVATION: Observed brine sensor at 87 turbine sump and brine sensor at 9/10 UDC fail to activate an audible and visual alarm when tested. CORRECTIVE ACTION: Owner/operator shall repair/replace inoperable 87 turbine sump and 9/10 UDC brine sensors and certify that sensor will activate an audible visual alarm when a leak is detected. Technicians on site replaced the 9/10 UDC brine sensor and repaired the 87 turbine sump brine sensor. Violation was corrected on site.

FOOD 4 LESS FUEL CENTER #315 (Continued) **S123508324**

Site ID:	30894
Site Name:	Food 4 Less Fuel Center #315
Violation Date:	02-17-2022
Citation:	23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)
Violation Description:	Failure of the functional line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements: Monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour leak at 10 pounds per square inch and restrict or shut off the flow of product through the piping when a leak is detected.
Violation Notes:	Returned to compliance on 04/07/2022. OBSERVATION: Observed 87 South PLLD unable to be tested during the monitoring certification due to an electrical problem. Site had the 87 South turbine replaced in August 2021 when the technician was troubleshooting a problem with the same line leak detector. CORRECTIVE ACTION: Owner/operator shall have the electrical problem addressed by a certified technician so the 87 South PLLD can be properly tested. This department shall be notified once repairs are complete and the 87 South PLLD is ready to be tested.
Violation Division:	Riverside County Department of Env Health
Violation Program:	UST
Violation Source:	CERS,

Site ID:	30894
Site Name:	Food 4 Less Fuel Center #315
Violation Date:	02-16-2021
Citation:	40 CFR 1 265.33 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.33
Violation Description:	Failure to test and maintain as necessary all facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment to assure its proper operation in time of emergency.
Violation Notes:	Returned to compliance on 04/12/2021. OBSERVATION: Observed facility to not have a liquid hazardous waste drum for potentially contaminated liquid on site for emergencies. Facility has a Veeder-Root alarm history indicating that facility has a history of liquid alarms where maintenance records claim that water was pumped out and placed in facility liquid hazardous waste drum. CORRECTIVE ACTION: Owner/operator shall maintain a liquid hazardous waste drum on site for emergencies when contaminated liquids must be removed from UST system. Provide a properly labeled hazardous waste liquid drum maintained on site.

Violation Date:	03-08-2019
Citation:	HSC 6.95 25505(c) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(c)
Violation Description:	Failure to have a business plan readily available to personnel of the business or the unified program facility with responsibilities for emergency response or training.
Violation Notes:	Returned to compliance on 04/18/2019. OBSERVATION: Facility personnel were unable to access/locate a current copy of the business plan during the inspection. CORRECTIVE ACTION: Owner/operator shall ensure a current copy of the hazardous materials business plan is readily available on site at all times when the facility is staffed.
Violation Division:	Riverside County Department of Env Health
Violation Program:	HMRRP
Violation Source:	CERS,

Site ID:	393916
Site Name:	Global plastics recycling
Violation Date:	12-08-2021
Citation:	Un-Specified
Violation Description:	Business Plan Program - Operations/Maintenance - General Local Ordinance
Violation Notes:	Returned to compliance on 12/09/2021. OBSERVATION: Observed faded NFPA-704 signs located at the entrance and on the buildings within the facility. Observed faded numbers on all of the NFPA signs. CORRECTIVE ACTION: Owner/operator shall replace all faded or otherwise unrecognizable NFPA-704 signs. Numbers need to be added/darken so they are easily readable. Submit photos to this department.

Citation:	22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Description:	Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.
Violation Notes:	Returned to compliance on 12/29/2021. OBSERVATION: Observed that used absorbent is being disposed of without a proper determination that the waste stream is eligible for disposal as non-hazardous waste. CORRECTIVE ACTION: Owner/operator shall conduct a proper waste analysis to determine if the used absorbent is eligible for disposal as non-hazardous waste. Retain records of waste analysis for at least 3 years.
Violation Division:	Riverside County Department of Env Health
Violation Program:	HW
Violation Source:	CERS,

Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 04/05/2019. OBSERVATION: Observed one 55 gallon drum of used oil and one 55 gallon drum of contaminated rags on site without an accumulation start date. CORRECTIVE ACTION: Owner/operator shall ensure all hazardous wastes are transported off site within 180 days of the accumulation start date. Owner/operator shall have 55 gallon drum of used oil and contaminated rags properly hauled off site by a registered hazardous waste transporter.

Violation Description:	Business Plan Program - Operations/Maintenance - General Local Ordinance
Violation Notes:	OBSERVATION: Observed pump in Caustic Soda room leaking onto the floor and observed white powder on the ground and around both tanks in the Caustic Soda room. The concrete was tested for pH in several areas and showed a reading of 14. A white solid substance was observed in the walls behind the drywall. The substance was tested for pH and had a reading of 14. The white substance was also observed in the warehouse on the other side of the Caustic Soda room. CORRECTIVE ACTION: Owner/operator shall store all hazardous materials in a manner which will prevent an unauthorized fire, explosion, or release. The leak at the pump in the Caustic Soda room shall be immediately addressed by either replacement of a new pump or by repair. The Caustic Soda room shall be remediated by a licensed hazardous waste cleanup contractor. After remediation is complete, the concrete in the Caustic Soda room shall be properly sealed. This department shall be notified upon completion for a final [Truncated]

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 10/27/2022

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 08/25/2022

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 07/29/2022

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Elevation:	1423 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	12015907 PERRIS, CA
Version Date:	2018

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

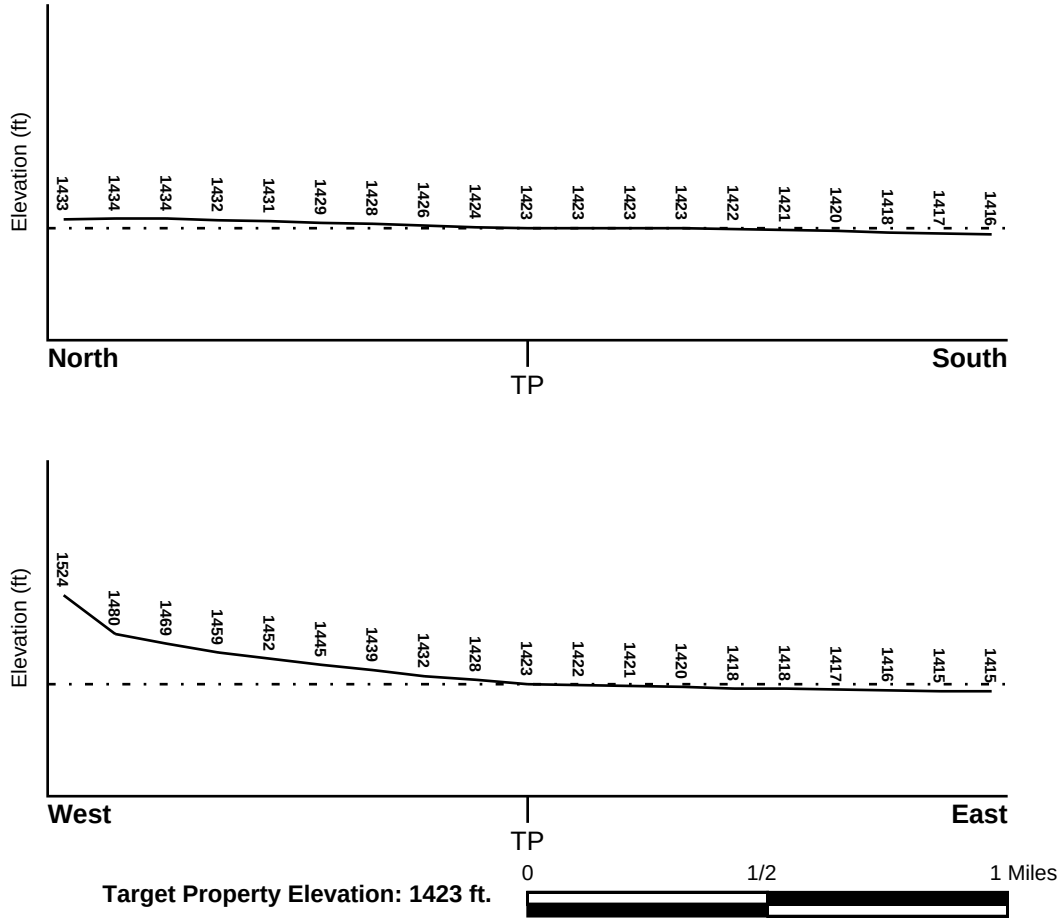

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ESE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06065C1440H	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
Not Reported	

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
NOT AVAILABLE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: RAMONA

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 4 Min: 1.4	Max: 8.4 Min: 6.6
2	14 inches	22 inches	fine sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 4 Min: 1.4	Max: 8.4 Min: 6.6
3	22 inches	68 inches	sandy clay loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 4 Min: 1.4	Max: 8.4 Min: 6.6

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
4	68 inches	74 inches	gravelly sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 4 Min: 1.4	Max: 8.4 Min: 6.6

Soil Map ID: 2

Soil Component Name: EXETER

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	16 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.4
2	16 inches	37 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.4

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
3	37 inches	50 inches	indurated	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.4
4	50 inches	59 inches	stratified sandy loam to silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.4

Soil Map ID: 3

Soil Component Name: DOMINO

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 4 Min: 1.4	Max: 9 Min: 7.9

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.
