Honorable Mayor, Members of the Perris City Council, and City Staff,,
The Perris Valley Chamber of Commerce is proud to offer our strong support for **The Harvest Landing Project**, a transformative **retail, housing, sports park, and shipping & receiving facility development** that will significantly strengthen Perris' economic future.

This project will activate over **358 acres of currently vacant land** and introduce a dynamic mix of **retail, dining, housing, a sports park, a shipping & receiving facility, and neighborhood-serving businesses**. At full build-out, it is projected to generate a **recurring annual fiscal surplus of approximately \$3.3 million**, with the potential to exceed that amount under certain conditions delivering long-term funding support for essential city services.

Additionally, the project is expected to create **thousands of permanent jobs**, generate substantial payroll, and drive more than **\$700 million in annual economic activity**, while construction alone will provide thousands of one-time jobs and major regional economic impact.

The Harvest Landing Project aligns directly with the Chamber's mission to promote business growth, job creation, and long-term economic vitality in Perris. We fully support this project and respectfully encourage its continued advancement.

Sincerely,

Jerry R. Sepulveda
President of the Board of Directors
Perris Valley Chamber of Commerce
